

Rekognisi Pendidikan, Olahraga, dan Kesehatan di Masa Endemi Covid-19

Jurnal Pengabdian Kepada Masyarakat Ceria (JPKMC). Pendidikan Kesehatan Penjamah Makanan: Penyuluhan Higiene Menggunakan Booklet Di Masa Endemi Covid-19. JPKMC. Pendidikan Kesehatan Penjamah Makanan: Penyuluhan Higiene Menggunakan Booklet Di Masa Endemi Covid-19.

SARS-CoV-2 is a new virus that causes respiratory diseases that can cause respiratory system disorders, acute pneumonia, and death. The COVID-19 endemic continues to show positive things towards the endemic. The step to prevent COVID-19 is to convey information to the public regarding the prevention of COVID-19. The importance of hygiene in food handlers so that safe food is served is the focus of the implementation of Community Service activities. Hygiene implementation behavior is supported by nutritional knowledge, attitudes or behavior of the handler starting from the preparation, cleaning, processing, transportation to serving to consumers. Booklets as a health education communication medium can increase the average knowledge and nutritional attitudes of the handler towards the implementation of institutional food hygiene. Community service through a community partnership program was carried out through counseling and simulations using booklet media in Batu Merah Village as an effort to implement food handler hygiene during the Covid-19 endemic period. The counseling participants were food handlers at the Batu Merah Village Institutional Food Site, totaling 50 people. This activity adds insight into the thinking of participants regarding the application of hygiene, and through simulations the handlers can realize hygiene practices and be applied every day at food service institutions. Keywords: Hygiene, Booklet, Food Handlers, Covid-19 Endemic

. Jurnal Pendidikan Jasmani, Olahraga dan Kesehatan Undiksha. JJP. Pelaksanaan Pembelajaran Pendidikan Jasmani Olahraga Dan Kesehatan Pada Masa Pandemi Covid-19 Tingkat SMA Negeri Se-Kabupaten Gianyar Bali.

Penelitian ini bertujuan untuk mengetahui pelaksanaan pembelajaran pendidikan jasmani olahraga dan kesehatan pada masa pandemi Covid-19 tingkat SMA Negeri se-Kabupaten Gianyar Bali. Populasi dalam penelitian ini adalah semua guru mata pelajaran PJOK di SMA Negeri se-Kabupaten Gianyar yang berjumlah 26 orang. Sampel dalam penelitian ini adalah 26 orang guru PJOK. Teknik analisis data pada riset ini adalah penelitian deskriptif. Sedangkan untuk menganalisa kuesioner digunakan Skala Likert untuk menghitung data kuesioner yang diisi oleh responden. Hasil riset menunjukkan bahwa Pelaksanaan pembelajaran PJOK pada masa pandemi COVID-19 se-Kabupaten Gianyar telah berjalan dengan baik dengan nilai rata-rata sebesar 4,20 dengan kategori baik. Tanggapan guru PJOK dalam pembelajaran PJOK pada masa pandemi Covid-19 menyatakan bahwa peserta didik dapat dengan baik mengikuti pembelajaran daring dengan bantuan media yang telah disepakati bersama-sama.

. SPORT GYMNASTICS : Jurnal Ilmiah Pendidikan Jasmani. SG. Proses pembelajaran pendidikan jasmani olahraga dan kesehatan (pjok) di slb kota bengkulu di masa pandemi covid-19.

Penelitian ini bertujuan untuk mengetahui bagaimana Proses pembelajaran PJOK terhadap ranah afektif, kognitif, dan psikomotorik. Masalah yang terjadi adalah belum diketahui penilaian yang dilakukan guru PJOK di masa pandemi Covid-19 pada SLB Kota Bengkulu. Penelitian ini merupakan penelitian kualitatif dengan metode deskriptif, teknik pengumpulan data yang digunakan diantaranya observasi, kuisioner dan dokumentasi. Teknik analisis data menggunakan skala likert. Subjek penelitian ini sebanyak 6 orang guru PJOK. Penelitian ini dilaksanakan di SLB Kota Bengkulu. Hasil penelitian menunjukkan guru PJOK melakukan penilaian: 1) ranah afektif berada pada kategori baik dengan persentase sebesar 78,33%, 2) penilaian kognitif berada pada kategori baik dengan persentase sebesar 80,33%, 3) penilaian ranah psikomotorik juga berada pada kategori baik dengan persentase sebesar 79,67%. Berdasarkan hasil penelitian secara keseluruhan dapat disimpulkan bahwa proses pembelajaran PJOK terhadap pembelajaran daring dalam mata pelajaran Pendidikan Jasmani Olahraga dan Kesehatan pada Masa Pandemi Covid-19 hasil

tersebut dinyatakan baik.

. Indonesian Journal of Fisheries Community Empowerment. Bangkit Bersama Masyarakat Desa Sanda Membangun Kesehatan, Ekonomi, Dan Pendidikan Di Masa Pandemi Covid-19. jppi. Bangkit Bersama Masyarakat Desa Sanda Membangun Kesehatan, Ekonomi, Dan Pendidikan Di Masa Pandemi Covid-19, BANGKIT BERSAMA MASYARAKAT DESA SANDA MEMBANGUN KESEHATAN, EKONOMI, DAN PENDIDIKAN DI MASA PANDEMI COVID-19.

Desa Sanda, adalah penghasil kopi yang merupakan prioritas utama daerah ini karena letak desa ini cocok untuk budidaya tanaman kopi. Terdapat juga komoditas lain seperti: cokelat, kelapa, durian, pisang, cengkeh, dan lain-lain. Sebelah utara desa ini merupakan Kawasan hutan, sehingga masyarakat di sana biasa ke hutan untuk mengambil kayu bakar. Di desa ini juga terdapat persawahan. Pada masa pandemi Covid-19, Desa Sanda sangat patuh dalam menerapkan protocol kesehatan. Hal ini terbukti dengan apresiasi dan penghargaan dari Kapolsek Pupuan atas kerja sama dan loyalitas masyarakat hingga membuat Desa Sanda zero Covid-19. Hal tersebut merupakan bentuk upaya Bhabinkamtibmas dan kepala Desa, Prajuru dan Satgas Covid Desa Sanda dalam mencegah penyebaran mata rantai Covid-19 akan memperoleh bantuan pemikiran dan tenaga dalam berkembang serta melaksanakan pembangunan kedepannya. Hal ini dapat direalisasikan karena melalui kegiatan KKN-Tematik, selain mahasiswa bergerak untuk meningkatkan softskill dan hardskill, mahasiswa juga dituntut untuk bersosialisasi serta berempati terhadap keadaan warga Desa Sanda Kecamatan Pupuan, Kabupaten Tabanan.

. SPORT-Mu: Jurnal Pendidikan Olahraga. Sport-Mu. Efektivitas Pembelajaran Pendidikan Jasmani Olahraga dan Kesehatan pada Masa Pandemi Covid-19 di SMA Negeri 1 Riau Silip.

Penelitian ini dilatarbelakangi oleh adanya wabah COVID-19 yang melanda dunia di penghujung tahun 2019 sampai akhir tahun 2021. Salah satunya di SMA Negeri 1 Riau Silip pada pembelajaran PJOK, dimana proses pembelajaran yang hanya berisi materi saja disekolah dan aktivitas fisik disekolah diganti dengan melakukannya dirumah. Penelitian ini bertujuan untuk mengetahui efektivitas pembelajaran pendidikan jasmani kesehatan dan rekreasi pada masa pandemi Covid-19. Jenis penelitian yang digunakan adalah penelitian kuantitatif. Metode kuantitatif dapat diartikan sebagai metode penelitian yang berlandaskan pada filsafat positivisme,

digunakan untuk meneliti pada populasi dan sampel tertentu, pengumpulan data menggunakan instrumen penelitian, analisis data bersifat kuantitatif/statistik. Nilai hasil pembelajaran pendidikan jasmani kesehatan dan rekrusi pada masa pandemi Covid-19 analisis keseluruhan menunjukkan nilai rata-rata 54,34. Berdasarkan hasil uji hipotesis deskriptif, nilai hitung sebesar -32,983, dan ttabel sebesar 1,97838 dengan signifikansi 0,05 uji satu sisi. Jadi Ho ditolak, dan Ha diterima dengan -32,983 1,97838 mengikuti kriteria jika hitung ttabel. Efektivitas pembelajaran pendidikan jasmani olahraga dan kesehatan riau silip, tidak tercapai 100% dari kriteria yang diharapkan. Dapat disimpulkan bahwa hasil belajar pembelajaran PJOK pada masa pandemi 100 dinyatakan tidak efektif.

. Jurnal Porkes. Porkes. Evaluasi Pelaksanaan Pembelajaran Daring dan Hasil Belajar Mahasiswa pada Masa Pandemi Covid-19. Multilateral : Jurnal Pendidikan Jasmani dan Olahraga. Multilateral. Pembelajaran pendidikan jasmani dan olahraga kesehatan di tengah darurat Covid-19 di Surabaya, dapatkah diterapkan?. Jurnal Pengabdian Masyarakat Kesehatan. HEALTH EDUCATION ABOUT PROPER EXERCISE DURING THE COVID-19 PANDEMIC. JPM. PENDIDIKAN KESEHATAN TENTANG OLAHRAGA YANG BENAR DI MASA PANDEMI COVID-19.

Pada akhir tahun 2019 terjadi wabah virus corona baru yang diberi nama 2019-novel corona virus (SARS-CoV-2) di kota Wuhan, provinsi Hubei, China. Virus ini mulai masuk ke Indonesia pada sekitar bulan Februari 2020. Sehingga semua kegiatan termasuk olahraga harus dilakukan didalam rumah ataupun kalau di luar rumah harus dilakukan dengan cermat. Banyak orang menganggap yang penting olahraga dengan jarak terpisah minimal satu meter dan memakai masker sudah cukup aman. Padahal tidak semua olahraga di luar ruangan itu aman. Situasi inilah yang membuat pentingnya edukasi tentang olahraga di masa pandemic. Kegiatan pengabdian masyarakat ini bermula dari surat permohonan dari ketua RW VI Kelurahan Darmo Surabaya untuk dilaksanakan penyuluhan. Kemudian surat tersebut direspon oleh unit LPPM STIKES Katolik St. Vincentius a Paulo untuk menugaskan tim dosen melakukan kegiatan pengabdian masyarakat. Seluruh proses kegiatan ini dilakukan selama 2 bulan. Setelah dilakukan proses pendidikan kesehatan didapatkan perubahan persentase tingkat pengetahuan warga tentang olahraga yang benar dimasa pandemic covid 19 adalah 6 orang (22%) mempunyai tingkat pengetahuan baik, 11 orang (40%) mempunyai tingkat pengetahuan sedang

dan 10 orang (38%) mempunyai tingkat pengetahuan kurang. Sedangkan setelah mengikuti pendidikan kesehatan didapatkan bahwa: 2 orang (7%) mempunyai tingkat pengetahuan sedang dan 25 orang (93%) mempunyai tingkat pengetahuan baik. Berdasarkan kegiatan tersebut menunjukkan bahwa pendidikan kesehatan dapat meningkatkan pengetahuan responden mengenai olah raga yang benar dimasa pandemic covid 19, disisi lain responden diharap tetap menerapkan protokol kesehatan terutama saat berolahraga di luar ruangan.

. Jurnal Patriot. JP. Penggunaan Media Pembelajaran dalam Pembelajaran Pendidikan Jasmani Olahraga dan Kesehatan di Masa Pandemi Covid-19. Tujuan dari penelitian Ini adalah untuk mengetahui seberapa tinggi tingkat penggunaan media pembelajaran dalam Pembelajaran PJOK selama pandemi covid-19 di Sekolah Menengah Kejuruan Se-Kota Bekasi. Metode yang digunakan dalam penelitian Ini adalah metode survei angket dengan instrumen dalam bentuk kuesioner. Subjek dalam penelitian ini adalah Guru dari Sekolah Menengah Kejuruan Negeri di Kota Bekasi yang berjumlah 27 Guru PJOK dengan rincian 24 guru berjenis kelamin laki laki dan 3 guru berjenis perempuan. Teknik analisis data dalam penelitian Ini menggunakan analisis deskriptif kuantitatif yang diberikan dalam bentuk persentase. Hasil dalam penelitian menunjukkan bahwa ditemukan tingkat penggunaan media pembelajaran pada pembelajaran PJOK selama pandemi covid-19 di Sekolah Menengah Kejuruan Negeri di Kota Bekasi masuk dalam kategori "sangat rendah" sebanyak 3,70% (1 guru), "rendah" adalah sebanyak 33,33% (9 guru), "cukup" adalah sebanyak 25,93% (7 guru), "tinggi" adalah sebanyak 37,04% (10 guru), dan "sangat tinggi" sebanyak 0,00% (0 guru). Berdasarkan skor rata-rata(mean), yaitu 18,48 termasuk dalam kategori cukup dengan frekuensi 7 Guru. Sehingga dapat disimpulkan bahwa tingkat penggunaan media pembelajaran dalam pembelajaran PJOK di masa pandemi covid-19 pada Sekolah Menengah Kejuruan Negeri di Kota Bekasi berada di kategori cukup dengan faktor yang sering digunakan yaitu faktor e-learning, faktor media audio visual dan faktor media komputer.

. MAJORA: Majalah Ilmiah Olahraga. MAJORA. Persepsi siswa terhadap pembelajaran daring mata pelajaran pendidikan jasmani olahraga dan kesehatan pada masa pandemi Covid-19.

Penelitian ini bertujuan untuk mengetahui seberapa positif Persepsi Siswa terhadap Pembelajaran Daring dalam Mata Pelajaran Pendidikan Jasmani Olahraga dan

Kesehatan di SMA N 1 Bintan Timur pada Pandemi Covid-19 Tahun 2020. Jenis penelitian ini merupakan penelitian deskriptif kuantitatif dengan metode survei. Teknik pengumpulan data dalam penelitian ini menggunakan instrumen angket dan teknik analisis data menggunakan statistik deskriptif dengan rumus persentase. Populasi dalam penelitian ini berjumlah 308 dengan menggunakan teknik Proporsional Random Sampling sehingga penentuan jumlah sampel 15% ini berjumlah 47 siswa. Validitas sebesar 0,585 dan reliabilitas sebesar 0,816 maka instrumen dalam penelitian ini dinyatakan reliabel. Berdasarkan hasil penelitian secara keseluruhan disimpulkan bahwa Persepsi Siswa terhadap Pembelajaran Daring dalam Mata Pelajaran Pendidikan Jasmani Olahraga dan Kesehatan di SMA N 1 Bintan Timur pada Pandemi covid-19 Tahun 2020 masuk dalam kategori sangat positif persentase 6,38%, kategori positif persentase 21,27%, kategori sedang persentase 42,56%, kategori negatif persentase 23,40%, dan kategori sangat negatif persentase 6,38%. Sehingga dapat dikatakan persepsi siswa SMA N 1 BINTAN Timur kategori sedang. Student's perception of online learning in sports and health education study in the Covid-19 pandemic AbstractsThe research aims to find out how positive it is The Perception of Students on Online Learning in The Subject of Sports and Health Education at SMA N 1 Bintan Timur on Covid-19 Pandemic 2020. The type of research is a quantitative descriptive study with a survey method. A questionnaire instrument is used as a data collection technique and descriptive statistic with a percentage formula is used as a data analysis technique in this study. The number of population in this study is 308 using Proportional Random Sampling technique so that the determination of the number of 15% sample is 47 students. The instrument in this research considered as reliable one since the validity is 0.585 and the reliability is 0.816. According to the result of the whole research, we can conclude that The Perception of Students on Online Learning in the Subject of Sports and Health Education at SMA N 1 Bintan Timur on Covid-19 Pandemic 2020 have few categories which vary from the very positive category with 6.38%, the positive category with 21.27%, the average category 42.56%, the negative category 23.40%, and the very negative category 6.38%. Hence, the conclusion of the perception of at SMA N 1 Bintan Timur is in the average category.

. Gelora : Jurnal Pendidikan Olahraga dan Kesehatan IKIP Mataram. GJPOK.
Persepsi Mahasiswa Terhadap Perkuliahan Daring Di Masa Pandemi Covid 19.

The aim of the study was to determine the physical education students' perception about online classes during the Covid-19 pandemic. The method used in this study is descriptive quantitative to determine students' views on sports, health and entertainment STKIP YPUP Makassar. The data collection technique used multimedia questionnaires distributed using Google Forms. The sample of random sampling techniques used in this study were 35 students. The results of this study showed that 29 students or 83% agree, 1 student or 3% strongly agree, 2 students or 6% disagree and 3 students or the 8% disagree to apply for online classes during this period 2019 Coronavirus pandemic. Therefore, it can be concluded that the students agreed to implementation of online classes during the Covid-19 pandemic

. Discourse of Physical Education. Discourse. Physic. Edu. Kedisiplinan dan Tanggungjawab Siswa dalam Pengaturan Pembelajaran Pendidikan Jasmani, Olahraga, dan Kesehatan di Masa Pandemi Covid-19.

Penelitian ini bertujuan untuk mengetahui tingkat kedisiplinan dan sikap tanggungjawab siswa MTs Pondok Pesantren Assulamy Langko dalam pengaturan pembelajaran pendidikan jasmani, olahraga, dan kesehatan (PJOK) di masa pandemi Covid-19. Desain penelitian ini menggunakan metode survei dengan teknik pengumpulan data menggunakan instrumen tes berupa angket. Populasi dalam penelitian ini adalah siswa kelas VII di MTs Pondok Pesantren Assulamy Langko yang berjumlah 75 siswa, dengan teknik sampling menggunakan studi populasi. Instrumen dan pengumpulan data dalam penelitian ini berupa angket tertutup yang sudah disediakan jawabannya, sehingga responden tinggal memilih dengan memberikan tanda check list (?) pada kolom yang sesuai. Teknik analisis data yang digunakan dalam penelitian ini adalah teknik statistik deskriptif dengan persentase. Hasil penelitian tingkat kedisiplinan siswa MTs Pondok Pesantren Assulamy Langko dalam pengaturan pembelajaran PJOK di masa pandemi Covid-19 yaitu bervariasi dengan kategori "sangat rendah" sebesar 20% (15 siswa), "rendah" sebesar 22.67% (17 siswa), "sedang" sebesar 22.67% (17 siswa), "tinggi" sebesar 24% (18 siswa), dan "sangat tinggi" sebesar 10.67% (8 siswa). Sedangkan, hasil penelitian sikap tanggungjawab siswa MTs Pondok Pesantren Assulamy Langko dalam pengaturan pembelajaran PJOK di masa pandemi Covid-19 yaitu bervariasi dengan kategori "sangat rendah" sebesar 12% (9 siswa), "rendah" sebesar 25.33% (19 siswa), "sedang" sebesar 33.33% (25 siswa), "tinggi" sebesar 20% (15 siswa), dan "sangat

tinggi" sebesar 9.33% (7 siswa). Discipline and Responsibility of the Students in the Setting of Physical Education, Sport, and Health Learning During the Covid-19 Pandemic Abstract This study aims to determine the level of discipline and responsibility of the students of MTs Pondok Pesantren Assulamy Langko in the setting of physical education learning during the Covid-19 pandemic. The design of this study used a survey method with data collection techniques using a test instrument in the form of a questionnaire. The population in this study was the seventh grade students at MTs Pondok Pesantren Assulamy Langko, totaling 75 students, with a sampling technique using a population study. The instrument and data collection in this study were in the form of a closed questionnaire whose answers had been provided, so that the respondents just had to choose by giving a check list (?) in the appropriate column. Data analysis technique used in this research is descriptive statistical technique with percentage. The results of the study on the level of discipline of MTs Pondok Pesantren Assulamy Langko students in PJOK learning settings during the Covid-19 pandemic, which varied with the categories "very low" by 20% (15 students), "low" by 22.67% (17 students), "medium" by 22.67% (17 students), "high" by 24% (18 students), and "very high" by 10.67% (8 students). Meanwhile, the results of the research on the attitude of responsibility of MTs Pondok Pesantren Assulamy Langko students in PJOK learning settings during the Covid-19 pandemic varied with the category of "very low" by 12% (9 students), "low" by 25.33% (19 students), "moderate" by 33.33% (25 students), "high" by 20% (15 students), and "very high" by 9.33% (7 students).

. Physical Activity Journal. PAJU. Survei Pelaksanaan Pembelajaran Pendidikan Jasmani Olahraga dan Kesehatan Pada Masa Pandemi Covid-19: Tinjauan Di Madrasah Ibtidaiyah (MI).

Sampai saat ini, belum ada pihak manapun yang memberikan pernyataan bahwa pandemi virus corona (Covid-19) sudah selesai. Bahkan cenderung menunjukkan penularan yang angkanya masih fluktuatif. Hal ini dapat berdampak pada keterlaksanaan pembelajaran tatap muka di sekolah tanpa terkecuali pada pembelajaran pendidikan jasmani di setiap jenjang pendidikan termasuk pada jenjang Madrasah Ibtidaiyah. Tujuan penelitian ini untuk mengetahui jalannya proses pembelajaran pendidikan jasmani olahraga dan kesehatan pada tingkat Madrasah Ibtidaiyah di Kabupaten Indramayu pada masa pandemi Covid-19. Metode penelitian

yang digunakan yaitu survei dengan instrumen berupa kuesioner dalam bentuk google form. Sebanyak 374 responden yang terdiri dari guru pendidikan jasmani, siswa, dan orang tua murid telah memberikan tanggapannya. Hasilnya menunjukkan bahwa proses pembelajaran pendidikan jasmani olahraga dan kesehatan di Madrasah Ibtidaiyah Kabupaten Indramayu dilaksanakan sesuai keadaan (daring, luring, dan gabungan). Terungkap juga bahwa beberapa responden belum begitu menguasai penggunaan gadget sehingga muncul kesulitan dalam proses pembelajaran dan pengumpulan tugas. Akan tetapi, hambatan tersebut dapat diatasi dengan adanya bantuan dari sekolah, peran guru penjas, penyesuaian siswa dalam belajar, dukungan orang tua, dan penggunaan media untuk pembelajaran sehingga pembelajaran tetap berjalan dengan baik. Kesimpulannya bahwa pelaksanaan pembelajaran pendidikan jasmani di Madrasah Ibtidaiyah Kabupaten Indramayu dominan dilaksanakan secara daring dengan beberapa kesulitan serta mengatasinya melalui berbagai peran yang terlibat sehingga pembelajaran tetap berjalan lancar

. Altius: Jurnal Ilmu Olahraga dan Kesehatan. altius. jurnal. ilmu. olahraga. dan. kesehat.. AKTIVITAS OLAHRAGA YANG DILAKUKAN MASYARAKAT PADA MASA PANDEMI COVID-19 DI KOTA BANDA BERDASARKAN USIA.

The purpose of this study is to find out what sports the community does during the Covid 19 pandemic in the city of Banda Aceh based on their age. Descriptive research method with survey techniques. The sampling technique was using random sampling techniques, the object was 350 people. Data collection techniques using google form. The data analysis technique used descriptive statistics. The results showed that the people of Banda Aceh, aged 16 to 25 years, 53% of the people did jogging during the Covid-19 pandemic, 22%, cycling and 25% of other sports such as walking, martial arts and grub sports. Ages 26 to 35 years 31% of people did jogging during the Covid-19 pandemic, 25%, cycling and 44% of other sports such as martial arts, gymnastics, yoga, walking, badminton and grub. Age 36 years and over 35% of people do jogging during the Covid-19 pandemic, 30% are cycling and 35% of other sports such as walking, badminton, agility and martial arts. The conclusion from the results of this study is that during the Covid-19 pandemic, the people of Banda Aceh city continued to carry out sports activities such as jogging, cycling, walking and other individual sports. His suggestion is that after sports

activities, people should no longer gather or rest in public areas, but instead return to their homes to avoid crowds.

. Patria Eduacational Journal (PEJ). pej. PENGEMBANGAN E-MODUL PEMBELAJARAN ONLINE BOLA BESAR PENDIDIKAN JASMANI OLAHRAGA DAN KESEHATAN DI MASA PANDEMI COVID-19 DI SMAN 1 GARUM KABUPATEN BLITAR.

Bahan ajar e-modul pembelajaran online bola besar pendidikan jasmani olahraga dan kesehatan di masa pandemi covid-19 sebagai sumber belajar yang efektif dan efisien dalam membantu pembelajaran daring/online. Penelitian ini menggunakan model pengembangan Borg and Gall melalui 10 tahapan yang sudah dimodifikasi menjadi 7 tahapan. Pada tahap validasi produk dilakukan 2 validator, ahli media dan materi. Selain itu responden penelitian guru dan peserta didik. Instrumen yang digunakan, Wawancara, Observasi, Lembar Validasi Produk, dan Lembar Kuesioner responden. Hasil penelitian e-modul pembelajaran online bola besar menunjukkan hasil penilaian memenuhi kriteria “Valid”, dan kategori penilaian “Layak” dan “Sangat Layak” sehingga dapat dijadikan bahan ajar dalam pembelajaran online bola besar di SMAN 1 Garum Kabupaten Blitar.

. Jurnal Ilmiah Mandala Education. JIME. Implementasi Pembelajaran Daring Bagi Mahasiswa Pendidikan Olahraga dan Kesehatan Universitas Pendidikan Mandalika Pada Masa Pandemic Covid-19.

Tujuan penelitian ini adalah untuk mengetahui implementasi pembelajaran daring bagi mahasiswa Pendidikan Olahraga dan Kesehatan Universitas Pendidikan Mandalika pada masa pandemic Covid-19 dan untuk mengetahui faktor pendukung dan penghambat dalam implementasi pembelajaran daring bagi mahasiswa Pendidikan Olahraga dan Kesehatan Universitas Pendidikan Mandalika pada masa pandemic Covid-19. Jenis penelitian ini adalah kualitatif. Teknik pengumpulan data menggunakan wawancara dan dokumentasi. Narasumber penelitian ini adalah dua orang dosen dan sepuluh orang mahasiswa Program Studi Pendidikan Olahraga dan Kesehatan Universitas Pendidikan Mandalika. Analisis data menggunakan analisis deskriptif. Triangulasi menggunakan teknik triangulasi sumber. Hasil penelitian menunjukkan bahwa 1) Implementasi pembelajaran daring bagi mahasiswa Pendidikan Olahraga dan Kesehatan Universitas Pendidikan Mandalika pada masa pandemic Covid-19 dilaksanakan berdasarkan SK Rektor Universitas

Pendidikan Mandalika tentang kebijakan pembelajaran secara daring. Pembelajaran daring bagi mahasiswa Program Studi Pendidikan Olahraga dan Kesehatan Universitas Pendidikan Mandalika dilaksanakan dengan menggunakan media daring seperti zoom, google class room, whatsapp group. Pada proses pembelajaran secara daring dosen memberikan materi dan tugas kepada mahasiswa menggunakan media yang telah ditetapkan oleh dosen. Proses interaksi yang terjalin dalam pembelajaran daring masih minim. Capaian pembelajaran dalam pembelajaran daring di Program Studi Pendidikan Olahraga dan Kesehatan Universitas Pendidikan Mandalika hasilnya sama dengan pembelajaran tatap muka, hanya saja kriteria ditetapkan lebih rendah mengingat situasi dan kondisi yang ada dengan adanya pandemic Covid-19. Faktor pendukung adanya dukungan dari pihak kampus Universitas Pendidikan Mandalika dengan menyediakan fasilitas pembelajaran bagi dosen melalui aplikasi pembelajaran berlangganan untuk membuat materi pembelajaran dan kuota internet. Bagi mahasiswa pun diberikan layanan gratis kuota internet dengan layanan provider yang telah ditetapkan, hanya saja tidak semua mahasiswa dapat memanfaatkan layanan kuota gratis tersebut. Faktor penghambat dalam pembelajaran daring adalah sinyal internet yang belum semua mahasiswa dapat mengaksesnya dengan baik. Hal ini dikarenakan mahasiswa banyak yang berada di daerah yang kemungkinan sinyal internet masih terbatas. Hambatan yang ada ini menyebabkan mahasiswa tidak dapat secara penuh mengikuti pembelajaran yang diberikan oleh dosen secara daring.

. MAJORA: Majalah Ilmiah Olahraga. MAJORA. PANDEMI COVID-19 SEBUAH TANTANGAN DAN PELUANG BAGI PEMBELAJARAN PENDIDIKAN JASMANI OLAHRAGA DAN KESEHATAN DI SEKOLAH MENENGAH PERTAMA.

Peristiwa pandemi COVID-19 mewabah sangat cepat ke seluruh negara dan sangat berbahaya bagi keselamatan manusia. Keadaan ini memaksa banyak pemerintah menerapkan kebijakan pembatasan berskala besar (PSBB). Hal ini mengakibatkan interaksi antara manusia secara langsung sangat dibatasi. Hilangnya kontak langsung antara guru dan murid dalam proses pembelajaran menimbulkan tantangan dalam pembeajaran PJOK. Namun demikian hak murid akan kebutuhan untuk memperoleh ilmu pengetahuan harus tetap terpenuhi. Hilangnya kontak langsung antara guru-murid akibat pembatasan jarak (physical distancing) menimbulkan beberapa tantangan dalam pelaksanaan proses belajar-mengajar

PJOK. Tantangan-tantangan tersebut antara lain sebagai berikut: guru mengalami kesulitan untuk melakukan proses pembimbingan dalam pencapaian kompetensi yang harus dimiliki oleh murid, mengukur objektivitas hasil evaluasi pembelajaran yang dilakukan oleh murid, memastikan bahwa murid terlibat secara aktif dalam pembelajaran yang dirancang, Pembelajaran berbasis internet sangat tergantung ketersediaan alat misal HP android, sinyal internet, paket data internet, Menambah kompleksitas peran orangtua dalam Pendidikan anaknya, dan adanya gegar budaya dalam proses pembelajaran.Di balik adanya tantangan akibat pandemi COVID-19 ini muncul berbagai peluang dalam pembelajaran PJOK. Peluang-peluang tersebut antara lain sebagai berikut: 1) adanya percepatan dalam literasi digital, 2) kreativitas dan inovasi guru dalam pembelajaran berbasis komputer meningkat, dan 3) adanya percepatan adaptasi terhadap paradigma kehidupan abad 21. Keadaan ini mungkin belum akan dilakukan oleh sebagian besar guru PJOK saat ini apabila tidak terjadi pandemi COVID-19. Wacana peradaban abad 21, revolusi industry 4.0, dan kemajuan lain-lainnya masih sekedar wacana di beberapa seminar atau diklat kini mulai terbukti. PANDEMIC COVID-19 A CHALLENGE AND OPPORTUNITY FOR HEALTH AND SPORTS PHYSICAL EDUCATION LEARNING IN JUNIOR HIGH SCHOOLAbstract The COVID-19 pandemic event spreads very quickly throughout the country and is very dangerous for human's safety. This situation forced many governments to implement large-scale restriction policies. This resulted in direct human interaction is very limited. The loss of direct contact between teachers and students in the learning process raises challenges in Physical Education Sport and Healt (PESH) learning. However, the right of students to the need to acquire knowledge must still be fulfilled. The loss of direct teacher-student contact due to physical distancing poses several challenges in the implementation of the Physical Education Sport and Healt teaching and learning process. These challenges include the following: teachers experience difficulties in carrying out the mentoring process in achieving competencies that must be owned by students, measuring the objectivity of the results of learning evaluations carried out by students, ensuring that students are actively involved in designed learning. Internet-based learning is very dependent on the availability of tools such as Android cellphones, internet signals, internet data packages, adding to the complexity of the role of parents in their child's education, and the presence of cultural shock in the learning process. Despite the challenges caused by the COVID-19 pandemic, various opportunities emerged in PESH

learning. These opportunities include the following: 1) there is an acceleration in digital literacy, 2) the creativity and innovation of teachers in computer-based learning increases, and 3) there is an acceleration of adaptation to the 21st century life paradigm. PESH teachers at this time if there was no COVID-19 pandemic. Discourse on 21st century civilization, industrial revolution 4.0, and other advances that are still just discourses in several seminars or training is now starting to be proven.

. Corner: Jurnal Pendidikan Jasmani dan Olahraga. Corner. SURVEY MINAT MASYARAKAT UNTUK OLAHRAGA REKREASI BERSEPEDA PADA MASA PANDEMI COVID 19 DI DEMAK.

Jawa Tengah merupakan salah satu daerah yang ada di Indonesia yang terdampak oleh virus covid 19. Oleh sebab itu pemerintah Jawa Tengah juga melakukan instruksi yang diberikan oleh pemerintah pusat untuk mencegah persebaran dari virus covid 19. Pemerintah memberlakukan social distancing dan juga Work From Home. Namun yang terjadi masyarakat diwilayah Jawa Tengah justru mencari aktifitas diluar rumah dengan bersepeda. Hal tersebut juga dialami oleh masyarakat dilingkungan kabupaten Demak. Permasalahan yang diambil dalam penelitian ini adalah bagaimana minat masyarakat untuk olahraga rekreasi bersepeda pada masa pandemi covid 19 di Demak. Penelitian ini menggunakan desain deskriptif kuantitatif dengan metode survey yang dilakukan secara online dengan menyebar angket melalui google form. Populasi dalam penelitian ini adalah pengguna sepeda diwilayah Demak dengan jumlah sampel 100 orang. Teknik analisis data menggunakan analisis deskriptif persentase. Hasil penelitian menunjukkan bahwa indikator yang paling dominan adalah indikator perhatian dengan perolehan skor persentase 78% masuk pada kategori tinggi. Untuk hasil keseluruhan dalam penelitian ini adalah 75 % masuk pada kategori tinggi. Hal tersebut menunjukkan bahwa minat masyarakat untuk olahraga rekreasi pada masa pandemi covid 19 masuk dalam kategori tinggi. Kesimpulan dalam penelitian ini adalah minat masyarakat untuk olahraga rekreasi bersepeda pada masa pandemi covid 19 masuk dalam kategori tinggi dengan persentase 75% dengan perolehan skor rata-rata 282. Masyarakat dengan kriteria sangat tinggi sebanyak 24 orang, kriteria tinggi sebanyak 73 orang, dan kriteria cukup sebanyak 3 orang. Masyarakat berpendapat bahwa bersepeda merupakan olahraga yang cocok yang dilakukan pada masa pandemi,

pada masa pandemi kesehatan merupakan hal yang harus paling kita jaga karena tubuh rentan terkena virus. Dengan bersepeda kita masih bisa menjaga protokol kesehatan yang telah diterapkan dimasa pandemi ini.

. Riyadho : Jurnal Pendidikan Olahraga. JPO. TINGKAT KEBUGARAN JASMANI MAHASISWA PRODI PENDIDIKAN JASMANI UNIVERSITAS NEGERI JAKARTA MASA TRANSISI ENDEMI COVID-19.

Pemeliharaan kesehatan sangat penting untuk dilakukan. Semakin terpelihara kesehatan ditunjukkan dengan semakin baiknya kondisi kebugaran jasmani seseorang. Kebugaran jasmani akan mendukung dalam menjalankan aktivitas sehari-hari. Peningkatan kebugaran jasmani dapat tingkatkan dengan olahraga atau kegiatan rutin. Telah banyak program peningkatan kebugaran jasmani yang dilakukan, baik itu dengan biaya yang murah dan menyenangkan. Dalam lingkungan Pendidikan selain pendidik maupun pengajar, mahasiswa semua terlibat dan harus tetap menjaga kebugaran jasmani nya. Berdasarkan uraian tersebut, diketahui bahwa kebugaran jasmani sangat penting bagi siapapun terutama mahasiswa pendidikan jasmani ataupun atlet. Kebugaran jasmani dapat dilakukan dengan melalui serangkaian tes, seperti lari cepat 60 meter, tes gantung angkat tubuh 60 detik, tes loncat tegak, tes baring duduk 60 detik, dan Bleep Tes. Jenis penelitian yaitu penelitian deskriptif. Populasi penelitian ini adalah mahasiswa pendidikan jasmani tahun akademik 2020/2021 Fakultas Ilmu Keolahragaan Universitas Negeri Jakarta sebanyak 20 mahasiswa. Kegiatan penelitian dalam melihat tingkat kebugaran jasmani masa transisi endemi Covid -19 terlaksana dengan baik dan mendapatkan nilai hasil kebugaran jasmani pada mahasiswa angkatan 2020/2021 Pendidikan Jasmani FIK UNJ sebanyak 8 (30%) mahasiswa berada dibawah rata-rata.

Une série de monnaies gauloises en argent, portant au revers un cheval surmonté d'un fleuron, ne semble avoir été diffusée que dans une partie très limitée de l'actuel

département de l'Hérault. Excluant les territoires de la plaine littorale, qui devaient dépendre à la fin de l'Âge du Fer de Béziers et d'Agde, cette distribution ignore également la partie septentrionale du futur territorium de la cité de Béziers, ainsi que la zone qui deviendra le territoire de Luteva, à l'exception notable du bassin de Gignac. On peut donc considérer qu'en 36 av. n. ère, la communauté émettrice, dont nous ignorons le nom et même la capitale (à moins que ce ne soit Piscinae. . . ?) a été intégrée dans la colonia baeterrensis en même temps que les anciens territoires du littoral (la Betarra préromaine), et ceux de l'arrière-pays qui ont pu être pris aux Ruteni. Le territoire de la civitas aurait donc été formé en agglomérant, selon plusieurs logiques, des amis et d'anciens ennemis. Le statut d'oppidum latinum pourrait alors témoigner des faveurs accordées aux uns (Cessero) pour les distinguer des autres (Ruteni).

AP STATS CHAPTER 2 TEST 2C ANSWERS

What percent is a 5 on the AP Stats exam? For students aiming to secure a 5 on the AP Statistics exam, an estimated objective is to obtain between 75% and 80% of the maximum possible points on the test.

What is the hardest chapter in AP Stats? Examiners' Reviews: Takeaways From Test Assessors “The most challenging units were 4 (Probability, Random Variables, and Probability Distributions) and 5 (Sampling Distributions). 5% of students answered every question about these units correctly, and 5% of students answered no questions about these units correctly.”

What of the population observations lie within 1.96 standard deviations on either side of the mean? 95% of the area under the normal distribution lies within 1.96 standard deviations away from the mean.

Is the AP Stats test hard? While the difficulty of the AP Statistics exam may be somewhat subjective, it's generally considered to be less challenging than many

other AP exams. That said, the exam does have a relatively low rate of perfect scores, so it's important to be prepared for some challenging concepts.

Is a 70% a 5 on the AP exam? Usually, a 70 to 75 percent out of 100 translates to a 5. However, there are some exams that are exceptions to this rule of thumb. The AP Grades that are reported to students, high schools, colleges, and universities in July are on AP's five-point scale: 5: Extremely well qualified.

What score is a 50% on the AP exam?

Is AP Stats or Calc harder? AP Calculus is generally considered more rigorous than AP Statistics. It's typically taken by students pursuing STEM fields or those looking to challenge themselves mathematically.

What is the lowest scoring AP exam? 1) AP Physics 1 At many high schools, AP Physics is notorious for its difficulty level. In addition, it has the lowest overall pass rate of any AP exam.

Is AP Stats harder than college algebra? While difficulty can be subjective, AP Statistics tends to prove challenging as both a course and exam, especially for students who lack experience in other advanced math courses like algebra II and calculus.

How to find the z-score? There are three variables to consider when calculating a z-score: the raw score (x), the population mean (μ), and the population standard deviation (σ). To get the z-score, subtract the population mean from the raw score and divide the result by the population standard deviation.

What does n stand for in standard error? s refers to sample standard deviation. Σ refers to sum of values. x_i refers to each value. \bar{x} refers to sample mean. N refers to number of values in the sample.

Is z-score the amount of standard deviations from the mean? Understanding Z-Score It indicates how many standard deviations a data point is from the mean of the distribution. If a Z-score is 0, it indicates that the data point's score is identical to the mean score. A Z-score of 1.0 would indicate a value that is one standard deviation from the mean.

Is a 2 on an AP test bad? AP® Score of 2 This score is usually not accepted by colleges unless there are extenuating circumstances. A 2 means that you may have studied hard and prepared; however, something may have gone amiss while taking your exam. Perhaps you did not truly understand the material or did not utilize it properly.

Which AP is the easiest?

Is a 3 on AP Stats good? Qualitatively, scores of 3, 4, and 5 are designated as “qualified”, “well qualified”, and “extremely well qualified” respectively. High AP® scores can improve college applications and qualify you for college credit.

Can you get a 0 on an AP exam? Hi there! Definitely not a weird question—it's good to understand all aspects of the AP exams, especially when stress is running high. To answer your question directly, no, you can't score a literal zero on an AP test; the scores range from 1 to 5.

Are AP tests curved? AP test scores are indeed "curved," but it's more accurate to call it a "scaling process." Instead of a traditional curve that compares your performance to other students' performance, the AP exam scaling process converts your raw score (the number of points you earned through multiple-choice questions and free- ...

What is a 69 on an AP exam? As a general guide, though, you can consider roughly more than 70% correct as being in the 5 range, 50-69% for a score of 4, 40-49% for a score of 3, 30-39% for a 2, and below 30% would likely be a 1. Again, these ranges are approximations and can vary by subject and by year.

Is 5 a bad AP score? AP Exams are scored on a scale of 1 to 5. Many U.S. colleges grant credit and/or advanced placement (that means they let you skip the equivalent course once you get to college) for scores of 3 and above.

How impressive is a 5 on an AP exam? Only for highly selective schools should you consider not reporting a four. For these extremely selective schools, a single score of five on an AP exam isn't necessarily impressive, but a string of fives might help to set you apart from other candidates.

How rare is a 5 on AP exam? As you can see, while at least 5% of test takers scored a 5 on each AP exam, the perfect scores are teeny, teeny, teeny percentages.

Should I take AP Stats if I'm bad at math? It's important to consider your own strengths, interests, and academic goals when deciding on which courses to take. If you're not particularly strong in math but still want to challenge yourself, AP Stats might be a good option for you.

Do colleges prefer calculus or statistics? Elite colleges often filter applications by a single high school course: calculus. Standardized tests like the SAT and ACT have lost importance, making calculus even more important for some admission officers. Acing calculus gives your college app a competitive edge, but colleges' reliance on calc is problematic.

Do colleges like to see calculus? Calculus can be important for college applications, especially for students who want to study science, math or business. Even though not all colleges require it, doing well in calculus can make your application stand out.

Is a 5 a 100 on an AP exam? For example, a 5 could be any composite score between 110 and 150 on one exam. Since scaling varies year to year, there are no exact cutoff numbers for scores for AP tests, and the College Board does not release detailed scoring data.

What is the 5 rate for AP stats? Getting a 5 takes careful content knowledge, targeted practice and dedicated studying. Only around 14% earn the top score for the AP® Statistics exam. To get a 5, start studying ASAP® and focus on applying concepts to specific situations.

What is the 5 percent rule AP stats? I think you want to talk about the "5%" rule in statistics ? It's rule which refers to confidence intervals. It's usually means that on a sample of something (which represent 100%), only 95% of this sample are compliant with a standard or a hypothesis.

What percent is a 5 on the AP government exam? What percent is a 5 on an AP Gov Exam? Students have to score an 80% or above to get a 5 on the exam. This

would be scoring 96 or more points out of 120 on the test.

Is a 2 a bad AP score? Generally speaking, a 2 is not a good AP score, as it is not considered a passing score by the College Board. If you get a 2 on your AP exam, it might be better not to submit that score to the colleges you're applying to.

What is a 69 on an AP exam? As a general guide, though, you can consider roughly more than 70% correct as being in the 5 range, 50-69% for a score of 4, 40-49% for a score of 3, 30-39% for a 2, and below 30% would likely be a 1. Again, these ranges are approximations and can vary by subject and by year.

Can you get a 0 on an AP exam? Hi there! Definitely not a weird question—it's good to understand all aspects of the AP exams, especially when stress is running high. To answer your question directly, no, you can't score a literal zero on an AP test; the scores range from 1 to 5.

Are AP tests curved? AP test scores are indeed "curved," but it's more accurate to call it a "scaling process." Instead of a traditional curve that compares your performance to other students' performance, the AP exam scaling process converts your raw score (the number of points you earned through multiple-choice questions and free- ...

Which AP is the hardest?

What is the easiest AP class?

Is the AP Stats exam curved? Why is my grade curved? Once the total composite scores are calculated, Collegeboard curves them differently each year to keep consistent standards and regular pass rates, which means we can only estimate based off of previous years.

What are the 5 W's AP stats? Data can be described by the five W's. Who, what, where, when and why. Who created the data? Presumably, someone created the data for a reason.

What is 10% in AP stats? Sampling without replacement results in trials that are not independent, but the 10% rule states that if the sample size is less than or equal to 10% of the population size, then the trials can be treated as if they are independent.

Is a 50% a 5 on the AP test? A 50% is considered a 3 or passing. This is when your AP credit is considered in colleges for being qualified, well qualified or extremely well qualified.

What AP exam has the lowest pass rate? Looking at the numbers, the hardest AP test is Physics 1. In May 2022, just 43.3% of test-takers passed, and only 7.9% received a perfect score. Other hard AP exams include US History, Macroeconomics, Chemistry, and Calculus AB.

Is the AP Gov test curved? Why are AP® US Government scores curved? Advanced Placement exam scores are always curved to maintain consistency. Because the specific questions change every year, the College Board wants to ensure that the scores reflect the same level of understanding year after year.

How to start affiliate marketing with no money?

What is the best platform to promote affiliate marketing?

How to create an affiliate marketing website for beginners?

How to create your own affiliate link for free?

Which affiliate program pays daily? CPAlead. CPAlead is an affiliate network that focuses on cost-per-action (CPA) offers. They have a daily payment system in place, allowing affiliates to receive their earnings quickly.

What is the easiest affiliate program to make money?

Which is the highest paying affiliate program?

What is better than affiliate marketing? Dropshipping typically provides higher profit margins since you can decide your selling price. Meanwhile, most affiliate programs offer a fixed commission. Earning potential.

What is the fastest growing affiliate marketing industry? The toy industry saw a 109% growth in affiliate marketing last year. The retail sector generates 43% of affiliate marketing revenue. The home and garden industry is the fastest-growing industry, with 209.72% growth year-over-year. The beauty industry is the slowest-growing industry, with 17.24% growth year-over-year.

What type of website is needed for affiliate marketing? There are many forms of affiliate marketing websites, with product review and comparison sites being the most popular. Other types include independent blogs, online magazines, and coupon websites.

What should a beginner do in affiliate marketing?

How to create an own affiliate program?

Which tool is best for affiliate marketing?

What is the best free place to begin your affiliate link? Your Own Website One of the best places to share your affiliate links for free is your own website or blog. First, as an owner, you can share any type of content you consider appropriate for promotion. Second, if you have already built a community and earned their trust, sharing links and driving clicks will be easy.

Can I make money as an affiliate without a website? Absolutely for affiliate marketing, you don't need to have a website, you only need traffic or audience and it may be on your youtube channel, Instagram, or Facebook. What is must only to paste the affiliate link on your post for verifying the sales made through your post or video.

What is the number one affiliate network?

What is the best affiliate program for beginners without a website? Amazon Associates, ClickBank, ShareASale, CJ Affiliate, Rakuten and Impact are top platforms that don't require a website to start. Utilizing social media, email marketing,

and content creation on platforms like YouTube can kickstart your affiliate journey.

What is the most profitable affiliate?

Which niche is best for affiliate marketing for beginners?

Which is the best affiliate program that is real?

Which affiliate program pays the fastest?

Who is the richest affiliate marketer?

Which affiliate program does pay per click? Google AdSense remains one of the most popular PPC affiliate programs, and for good reason. It offers a vast network of advertisers and a reliable platform for earning revenue from website traffic.

Which company gives the highest commission on affiliate marketing?

Which affiliate program gives more money? If you understand proxies and have a tech-minded audience, then Smartproxy offers one of the best affiliate programs. It is one of the highest-paying affiliate programs in the niche, with up to 50% commissions! In reality, that means you can earn up to \$2,500 for each new customer you refer via your affiliate link.

What is the best platform for affiliate marketing?

Is there a downside to affiliate marketing? You don't control your competition. Practically anyone can join and be successful. Highly talented affiliate marketers from the same niche make up fierce competition, which is an obvious danger to your performance and a significant disadvantage.

Can you be an affiliate marketer for free? Can you become an affiliate marketer with no money? Yes, you can become an affiliate marketer with no money. Social media channels like YouTube and Facebook can help you promote affiliate links without spending any money. You just need time and creativity to create captivating content.

How do affiliate marketers start for beginners?

How much can a beginner affiliate make? Beginner affiliate marketers typically make up to 30% commission per sale. Depending on the number of sales made, beginner affiliate marketers can make anywhere from \$10,000 to \$100,000 annually.

How much does it cost to start affiliate marketing? And how do you set it up for your business? Generally, affiliate marketing costs can range from \$600 for a simple campaign to \$20,000 and more for a comprehensive program. The price you'll pay hangs on several factors, no matter the affiliate marketing program, affiliate partner, or commission structure you choose.

What is the best way to start making money online with affiliate marketing?

What is the best affiliate program for beginners without a website? Amazon Associates, ClickBank, ShareASale, CJ Affiliate, Rakuten and Impact are top platforms that don't require a website to start. Utilizing social media, email marketing, and content creation on platforms like YouTube can kickstart your affiliate journey.

Which website is best for affiliate marketing?

How can I teach myself affiliate marketing?

What is the best affiliate marketing platform?

What is the first thing to do in affiliate marketing? Step 1: Create a Website or A Blog. Step 2: Choose an Industry, and then Niche Down. Step 3: Research Products in Your Niche that You Can Review.

How much do Amazon affiliates make a month? How much does an Amazon Affiliate make? As of Aug 17, 2024, the average annual pay for an Amazon Affiliate in the United States is \$77,893 a year. Just in case you need a simple salary calculator, that works out to be approximately \$37.45 an hour. This is the equivalent of \$1,497/week or \$6,491/month.

What is the most profitable affiliate?

Can you make \$10,000 a month with affiliate marketing? Affiliate marketing is a hard way to make money, but if you want to make \$10,000 per month, you need a clear plan, hard work, and the will to keep learning. Success changes from person to

person, but based on my work with affiliate marketers, here are the most important steps to get you going in the right direction: 1.

Can I be an affiliate without a website? Yes, starting affiliate marketing doesn't require you to have a website. You can use online publishing platforms, emails, podcasts, and paid ads to promote products to your target audiences.

How hard is affiliate marketing for beginners? Reality: Anyone can be an affiliate marketer, but not everyone will succeed. Being an affiliate marketer requires skill, experience, and work. It is not a quick or easy road to success, but when done properly, it can generate impressive income.

Do you need a license to start affiliate marketing? A key takeaway is that you typically don't need a business license for affiliate marketing unless required by local laws or if you choose to register as an LLC or other formal business structure. Managing finances effectively forms another crucial aspect, along with strategies for scaling up over time.

FINANCIAL STATEMENT ANALYSIS AND VALUATION 3RD THIRD EDITION BY EASTON MCANALLY SOMMERS ZHANG PUBLISHED BY CAMBRIDGE BUSINESS PUBLISHERS 2013

What is a financial statement analysis by authors? Financial statement analysis involves a comprehensive examination of a company's financial statements, including the income statement, balance sheet, and cash flow statement. Analysts assess revenue, earnings, assets, liabilities, and cash flow to gauge financial health and performance.

What are the objectives of financial statement analysis class 12? What are the objectives of financial statement analysis? The objectives of financial statement analysis are to assess financial performance, evaluate the financial position, identify trends and patterns, measure liquidity and solvency, and make informed decisions based on the analysis of financial statements.

What are the 5 methods of financial statement analysis? There are five commonplace approaches to financial statement analysis: horizontal analysis, vertical analysis, ratio analysis, trend analysis and cost-volume profit analysis.

What is learned from the process of financial statement analysis? Overall, a central focus of financial analysis is evaluating the company's ability to earn a return on its capital that is at least equal to the cost of that capital, to profitably grow its operations, and to generate enough cash to meet obligations and pursue opportunities.

Who is the father of financial statement analysis? Benjamin Graham The Father of Financial Analysis.

What is financial statement analysis and why is it important? Financial statement analysis is the process of analyzing a company's financial statements for decision-making purposes. External stakeholders use it to understand the overall health of an organization and to evaluate financial performance and business value.

What are the limitations of financial statement analysis class 12? The following are the limitations of financial statements: Dependence on historical costs: Transactions are documented at their cost. This is interest when analysing the balance sheet, where the values of assets and liabilities might vary over time.

What is the purpose of financial analysis? The financial analysis aims to analyze whether an entity is stable, liquid, solvent, or profitable enough to warrant a monetary investment. It is used to evaluate economic trends, set financial policies, build long-term plans for business activity, and identify projects or companies for investment.

What is an example of a financial analysis? One example of a financial analysis would be if a financial analyst calculated your company's profitability ratios, which assess your company's ability to make money, and leverage ratios, which measure your company's ability to pay off its debts.

What are the 3 basic tools for financial statement analysis? The three major tools for financial statement analyses are horizontal analysis, vertical analysis, and ratios analysis.

What are the 4 types of financial statement analysis? For-profit businesses use four primary types of financial statement: the balance sheet, the income statement, the statement of cash flow, and the statement of retained earnings. Read on to explore each one and the information it conveys.

What are the three needs of financial statement analysis? Financial statement analysis is used to identify the trends and relationships between financial statement items. Both internal management and external users (such as analysts, creditors, and investors) of the financial statements need to evaluate a company's profitability, liquidity, and solvency.

What is financial analysis in simple words? Financial analysis is the process of evaluating businesses, projects, budgets, and other finance-related transactions to determine their performance and suitability. Typically, financial analysis is used to analyze whether an entity is stable, solvent, liquid, or profitable enough to warrant a monetary investment.

What do authors mean by financial statements? Kristina Russo | CPA, MBA, Author. February 10, 2022. Financial statements are a standardized set of reports that communicate financial information to stakeholders both inside and outside of a company.

What are the three financial statement analysis? What is a 3-Statement Model? The 3-Statement Model is an integrated model used to forecast the income statement, balance sheet, and cash flow statement of a company for purposes of projecting its forward-looking financial performance.

What are the three needs of financial statement analysis? Financial statement analysis is used to identify the trends and relationships between financial statement items. Both internal management and external users (such as analysts, creditors, and investors) of the financial statements need to evaluate a company's profitability, liquidity, and solvency.

and valve. ASME 2009 Power Conference. Design Methodology and Valve Sizing for Heater Drain Systems.

Heater drain systems in fossil and nuclear power plants have proven to be among the most complex systems to design due to the occurrence of two-phase flow phenomena. The overall performance of heater drain systems directly relates to proper sizing and design of the piping and control valves. Proper sizing is highly dependent upon accurate and conservative calculation of two-phase flow pressure losses. This paper outlines the various options of solution methods available to the engineer and details one possible method which is simple, yet adequate, and based on the homogeneous equilibrium model (HEM) for two phase flow for calculation of heater drain system performance. General comparisons are made to the more complex multi-fluid models, flow regime considerations, and non-equilibrium models.

New Analytical Equations of Recovery Factor for Radial Flow Systems.

This paper presents analytical algorithms to calculate ultimate recovery factors for radial flow systems. The approaching method is similar to the well-recognized Buckley-Leverett equations, but it's accurate for matured fields, especially peripheral water-flooding reservoirs.

Buckley-Leverett displacement equations have been derived strictly from linear flow systems, and have been verified by linear flow experiments only. However, nowadays, it's very common to observe multiple water injectors drilled around producers to enhance the recovery factor in mature fields. New analytical equations that consider non-linear flow patterns are more appropriate for these types of operations.

The new equations proposed in this paper have been verified with real field data. The original Buckley-Leverett equation generally results in much lower recovery factors that barely match the cumulative production. Consequently, the estimated ultimate recovery (EUR) by volumetric methods tends to be too low. As a result, the production projections according to match this EUR are not reasonable when compared to the historical performance of the wells and Decline Curve Analysis (DCA). The proposed analytical model improves the prediction of reservoir performance. It works as an important supplement to the Buckley-Leverett method for oil fields worldwide.
