The Little Black Songbook: David Bowie

The Constellation that Connects Langston Hughes and David Bowie, Antonín Dvo?ák and Nina Simone. The Constellation that Connects Langston Hughes and David Bowie, Antonín Dvo?ák and Nina Simone.

This chapter presents the widening "constellation" of cultural heroes who embraced the "Liza Jane" family of songs. From the literary star Langston Hughes, to one of the greatest musicians in American history, Nina Simone, "Liza Jane" songs continued to appeal at the highest echelons of American culture—and world culture. Shockingly, "Liza Jane" would become David Bowie's very first single in 1964. Most captivating, perhaps, would be the unlikely friendship that developed between classical composer Antonín Dvo?ák and his student Harry Burleigh in the 1890s at the National Conservatory of Music in New York. There is good reason to believe that Burleigh sang "Little Liza Jane" to Dvo?ák, and astonishingly, decades later, R&B saxophonist Lee Allen paid homage to Dvo?ák's belief in African American music by accoupling the composer's seventh "Humoresque" to a bright recording of "Little Liza Jane" in New Orleans.

. David Bowie as Actor. I'm Not a Film Star.

The first collection dedicated to David Bowie's acting career shows that his film characterisations and performance styles shift and reform as decoratively as his musical personas. Though he was described as the most influential pop artist of the 20th century, whose work became synonymous with mask, mystery, sexual excess and ch-ch-ch-changing genres, Bowie also applied his genius to the craft of acting.

Bowie's considerable filmography is systematically examined in 12 scholarly essays that include tributes to Bowie's performance craft in other media forms. Classic films such as The Prestige and Merry Christmas, Mr. Lawrence, cult hits Labyrinth and The Man Who Fell To Earth, as well as lesser-known roles in The Image, Christiane F. and Broadway hit The Elephant Man are viewed, not simply through the lens of

Bowie's mega-stardom, but as the work of a serious actor with inimitable talent. This compelling analysis celebrates the risk-taking intelligence and bravura of David Bowie: actor, mime, mimic and icon.

This chapter focuses on "Goodbye Liza Jane," the most popular "Liza Jane" variant in nineteenth century popular culture. It begins with minstrelsy bandleader Eddie Fox, who in 1871 published the first known piece of sheet music in the "Liza Jane" family of songs. An examination of Fox's lyrics reveals the presence of several "floating verses" from earlier minstrel pieces. By the time George W. Johnson became the first person to record "Liza Jane" lyrics in 1898, "Goodbye Liza Jane" had become an international "hit," having been performed in the United States, England, South Africa, and New Zealand. Johnson is widely regarded as the first African American recording star, and he projects his garrulous laughing skills onto these early cylinder recordings.
