[ACIDS BASES AND SOLUTION CHAPTER TEST A ANSWERS](#)

What is acid and base question answer? An acid is any hydrogen-containing substance that is capable of donating a proton (hydrogen ion) to another substance. A base is a molecule or ion able to accept a hydrogen ion from an acid. Acidic substances are usually identified by their sour taste.

What are the tests to identify acids and bases answer? The most common tests for acid and bases are litmus paper tests. The litmus paper is the chemical indicator used to test the nature of a solution by changing the color in response to the pH of the solution.

What is the paper test for acids and bases? Litmus paper is divided into two categories: red litmus paper and blue litmus paper. If the material is acidic, the blue litmus paper turns red. If the material is basic or alkaline, the red litmus paper turns blue. In acidic solutions, litmus turns red, while in simple solutions, it turns blue.

Which best describes a pH scale? Detailed Description pH is a measure of how acidic/basic water is. The range goes from 0 - 14, with 7 being neutral. pHs of less than 7 indicate acidity, whereas a pH of greater than 7 indicates a base.

What is acid in answer? An acid is a chemical substance, usually a liquid, which contains hydrogen and can react with other substances to form salts.

What are 4 examples of acid and base? Common examples of bases include baking soda, toothpaste and products that contain lye, which is a metal hydroxide, such products are often used as drain cleaners. Common examples of acids are vinegar, citrus, toilet bowl cleaners and battery acid.

What does pH stand for? The abbreviation pH stands for "potential of hydrogen." The pH scale measures the density of hydrogen ions in a substance. Hydrogen ions are hydrogen atoms that have positive charges. Each hydrogen has one proton. In other words, the pH scale measures a substance's concentration of lone protons.

How to tell acid or base? If there are more positively charged hydroniums than negatively charged hydroxyls, then the substance is acidic. If there are more negatively charged hydroxyls than positively charged hydroniums, then the substance becomes basic. pH actually stands for the "potential (or power) of hydrogen."

Is the solution acidic or basic? A solution is neutral if it contains equal concentrations of hydronium and hydroxide ions; acidic if it contains a greater concentration of hydronium ions than hydroxide ions; and basic if it contains a lesser concentration of hydronium ions than hydroxide ions.

What are the colors of pH scale?

What is an acid test question? Definition. The Supreme Court has now confirmed that to determine whether a person is deprived of their liberty, there are 2 key questions to ask, described as the 'acid test': Is the person free to leave. Is the person subject to continuous supervision and control.

How to use pH scale? One easy way that you can measure pH is with a strip of litmus paper. When you touch a strip of litmus paper to something, the paper changes color depending on whether the substance is acidic or basic. If the paper turns red, the substance is acidic, and if it turns blue, the substance is basic.

What pH is lemon? Remember, a pH of 7.0 is neutral. Anything above that (7–14) is basic, and anything below that (0–6) is acidic. The pH of lemon juice is about 2.0, whereas tomato juice's pH is about 4.0.

What pH is water? Water has a neutral pH of 7, which indicates that it is neither acidic or basic. The scale ranges from 0 (very acidic) to 14 (very basic). It is normal for water to have a range of between 6.5 and 8.5 on the scale. pH in water may fluctuate with differing environmental factors.

Is vinegar an acid? Substances with pH levels under 7 are categorized as acidic. Vinegar is acidic. Vinegar's pH level varies based upon the type of vinegar it is. White distilled vinegar, the kind best suited for household cleaning, typically has a pH of around 2.5.

What is the pH of an acid? A pH less than 7 is acidic, and a pH greater than 7 is basic. Pure water is neutral, with a pH of 7.0. When chemicals are mixed with water, the mixture can become some level of either acidic or alkaline. Vinegar and lemon juice are acidic substances, while laundry detergents and ammonia are alkaline.

What are 20 examples of bases?

What is 1 acid example? Examples of acids include the inorganic substances known as the mineral acids—sulfuric, nitric, hydrochloric, and phosphoric acids—and the organic compounds belonging to the carboxylic acid, sulfonic acid, and phenol groups.

How to calculate pH? $\text{pH} = -\log [\text{H}_3\text{O}^+]$. The hydronium ion concentration can be found from the pH by the reverse of the mathematical operation employed to find the pH. Example: What is the hydronium ion concentration in a solution that has a pH of 8.34? On a calculator, calculate $10^{-8.34}$, or "inverse" log (- 8.34).

What does "pH" mean? The letters pH stand for potential of hydrogen, since pH is effectively a measure of the concentration of hydrogen ions (that is, protons) in a substance.

What does pH measure? pH describes how acidic or basic a solution is. Whether an aqueous solution reacts as an acid or a base depends on its hydrogen ion (H^+) content. In fact, the term "pH" originates from Latin and is an acronym for "potentia hydrogenii" - the power of hydrogen.

What defines an acid and a base? The chemical difference between acids and bases is that acids produce hydrogen ions and bases accept hydrogen ions. A base is a substance that neutralises acids. When bases are added to water, they split to form hydroxide ions, written as OH^- . We call a base that has been added to water an alkaline solution.

What are the 5 differences between acid and base? Acids Bases (i) Sour in taste (ii) Bitter in taste (iii) The properties are due to the presence of hydrogen ion H^+ in water solution of an acid (iv) The properties are due to the presence of hydroxide ion OH^- in water solution of a base (v) Turns blue litmus to red (vi) Turns red litmus to blue (vii) Aqueous solution conducts ...

What is an acid and a base reaction example? Look at the following examples: Nitric acid reacts with sodium carbonate to form sodium nitrate, carbon dioxide and water. Sulfuric acid reacts with calcium carbonate to form calcium sulfate, carbon dioxide and water. Hydrochloric acid reacts with calcium carbonate to form calcium chloride, carbon dioxide and water.

What is an acid and a base quizlet? An acid is a substance that releases hydrogen ions into an aqueous solution. A base is a substance that releases hydroxide ions. Bases are caustic and acids are corrosive, giving very similar reactions to organic substances.

Kepolisian memiliki salah satu fungsi sebagai layanan pengaduan masyarakat seperti laporan penipuan, pencurian, tindak kekerasan dalam rumah tangga, kehilangan barang dan laporan lainnya. Pengaduan masyarakat dapat dilakukan dengan datang langsung atau melakukan laporan darurat melalui layanan telepon yang disediakan oleh pihak Kepolisian. Untuk mempercepat respon dari pengaduan masyarakat yang berstatus darurat dibutuhkan suatu sistem yang berjalan secara real time. Pemanfaatan teknologi aplikasi telepon dapat mempermudah pelaporan masyarakat ke pihak kepolisian bahkan diharapkan dengan adanya laporan secara realtime tindak kejahatan maupun kejadian yang sedang berlangsung dapat segera ditangani oleh petugas yang sedang berada di sekitar kejadian perkara. Hasil dari kebutuhan masyarakat tersebut dan keperluan terdeteksinya lokasi kejadian perkara oleh anggota polisi di lapangan, dirancang tiga aplikasi di dalam sistem Panic Button. Yaitu aplikasi yang digunakan masyarakat untuk melakukan pelaporan, aplikasi yang digunakan pihak kepolisian yang bertugas dilapangan menerima laporan masyarakat dan aplikasi panic button management system yang berfungsi mengatur keseluruhan kebutuhan aplikasi yang berada di sistem.

Evaluasi Penerapan Tata Kelola TI Menggunakan Cobit 5.

The quality of Academic Information System Service (SIKAD) which has been implemented by STIH Muhammadiyah Kotabumi has not been optimal as expected. In accordance with that, it was seen that there is incompatibility between the plan and the reality. An audit related to the maturity level of TI management on the implementation of SIKAD STIH Muhammadiyah Kotabumi is important to be conducted in order to get the recommendation of service improvement. Evaluation was done through questionnaire, interview and document of STIH Muhammadiyah Kotabumi. This research used COBIT 5 consisting of EDM 04, APO04, APO 07, BAI 04, DSS 01, dan MEA 01. The data source was gotten from the Head of STIH Muhammadiyah Kotabumi, the Head of administrations, the Head Communication Centre, TI Staff, and Academic Staff. An analysis was done by using descriptive interpretative based on COBIT 5.

. Sienna. sienna. Kamus Digital Aksara Lampung Berbasis Web.

Bahasa Lampung merupakan bahasa daerah yang perlu dilestarikan di kalangan pelajar. Sayangnya, banyak pelajar zaman sekarang yang merasa malu atau enggan untuk menggunakan bahasa Lampung dalam kehidupan sehari-hari. Oleh karena itu, pentingnya pelajaran bahasa Lampung di sekolah untuk mengajarkan kepada para pelajar bahwa melestarikan bahasa daerah sama pentingnya dengan mempelajari bahasa internasional. Untuk mendukung pelestarian bahasa Lampung dan mempermudah siswa dan guru dalam mencari makna kata atau frasa dalam bahasa Lampung, sebuah penelitian dilakukan di MTSN 1 Lampung Utara. Tujuan dari penelitian ini adalah agar proses belajar dan mengajar bahasa Lampung, aksara Lampung, dan bahasa Inggris dapat dilakukan secara bersamaan. Hal ini memotivasi pembuatan kamus digital yang berfungsi sebagai alat bantu. Aplikasi ini dirancang untuk mendukung sistem belajar mengajar di MTSN 1 Lampung Utara. Dengan menggabungkan Microsoft Visual Basic .NET 2010 dan MySql dengan metode prototype. Kamus digital ini telah dirancang dengan baik sehingga dapat digunakan oleh pengguna yang membutuhkannya, sehingga proses belajar mengajar menjadi lebih cepat dan efisien. Aplikasi ini diharapkan dapat menjadi alat yang membantu masyarakat dalam melestarikan bahasa Lampung dan meningkatkan pemahaman terhadap budaya dan bahasa daerah secara lebih luas.

. Sienna. sienna. IMPLEMENTASI MANAJEMEN BANDWIDTH MENGGUNAKAN QUEUE TREE ROUTER MIKROTIK.

The development of information technology is currently developing very quickly, both software and hardware, in line with the needs of modern humans. The internet is one of the information technologies that has had a tremendous impact on many aspects of human life. With equipment and software for bandwidth management, computer networks can function properly. The world of education, government and private agencies, and all jobs in general require bandwidth management with Mikrotik routers to help overcome traffic congestion that can disrupt computer network connections. Because computer networks can go down or have problems because there is no equal distribution of bandwidth for each user, therefore it is necessary to make large bandwidth distribution arrangements, with the aim of achieving optimal bandwidth capacity for each user. Other factors can also affect network throughput, such as packet loss, certain network protocols, and device networks. Queue trees can provide limits for specific IP addresses, subnets, protocols, ports, and other parameters. Queue trees limit peer-to-peer traffic. Prioritize some flow packets over others. Queue tree can be configured for download and upload traffic so web browsing can be faster. Apply different limits based on time. And share available traffic among users equally or depending on channel load. Function per queue connection. PCQ is one of the functions used for bandwidth management to improve system performance.

. Sienna. sienna. MONITORING TEMPERATUR DAN KELEMBABAN BERBASIS IOT PADA SERVER.

Server is a place to store data and information that is owned so that it can be accessed by anyone and connected workstations from anywhere. If the server room gets too hot or too humid, it can cause your server to not work properly. Air with too high humidity can damage the hardware on the server, for example, equipment can cause a short circuit caused by rust. The ideal humidity level for a server room is between 40 and 50%. As the humidity level increases, the amount of water vapor in the air increases. This can cause changes in vapor to liquid, electronic devices cannot be exposed to water. Many mistakes that are often made by server owners are by placing temperature and humidity detection sensors in the room, the temperature detection sensor should be placed in the rack of each server at each rack level, which is positioned at the front and back of the rack. The device that is commonly used in making Internet of Things applications is Arduino, Arduino is used

as a link between the internet and sensors so that data from these sensors can be accessed. via the internet to set the behavior of specific equipment. In this study, Arduino was used because Arduino is an opensource device, the programming language used is C language and the Python programming language can also be used. From the availability of the library, there are many libraries that are ready and easy to use. Temperature and humidity detection in this study uses a DHT 11 temperature and humidity sensor connected to an Arduino device that is connected to the internet via a local network.

. Sienna. sienna. Evaluasi Penerapan Teknologi Informasi Menggunakan Framework Itil Versi 3.

Higher education institutions is right now required to have a Website as an information services for the entire of academic community and also to the public STIE Muhammadiyah Kalianda feels that the use of Website is unsatisfactory so that the implementation still needs improvement. Appropriate and easy methods user in carrying out the measurement of Website perormance absolutely are needed, the process of evaluating the performance of information technology implementation that used is the Framework Information Technology Infrastructure Library which is expected to provide a comprehensive solutions related to organizational and management conditions. From the results of the research, it can be concluded, that the management and services that carried out by STIE Kalianda have been in the level of the defined process

. Sienna. sienna. XSS Attack Detection and Mitigation Using Multi-Layer Security Mechanism (MLSM).

BSSN stated that there were 12.9 million cyber threats in Indonesia during 2018. In January - April 2020, the number of cyber-attacks increased. In those four months, the number of cyberattacks reached 88 million. The methods, applications, and attack techniques used cannot be identified easily. However, according to data from the OWASP Top Ten in 2017 and 2021 (statistics-based proposal), there are 10 website security vulnerabilities that are most often exploited. XSS is one of the security holes included in the list. In addition to being a loophole that is often found, the impact of XSS is very fatal, because it allows attackers to do account takeovers, theft of personal data, and so on. There are several studies that have implemented mechanisms to detect and mitigate XSS attacks. However, the implementation has

not yet obtained effective and holistic results. The mechanism tested by previous research still leaves a security problem that allows attackers to execute XSS attacks. One of the things that cause this problem is the use of a single-layer security mechanism. Therefore, the purpose of this study is to test the effectiveness of the multi-layer security (MLSM) mechanism in detecting and mitigating XSS attacks. MLSM consists of five layers, namely OWASP ModSecurity, Framework/CMS Security Feature, HTTP Middleware, Templating Engine, and Data Sanitizer. To test the security level of MLSM, the researchers conducted a simulation of attacks using the Arachni and ZAP applications on a sample website that had 170 XSS security vulnerabilities. Based on test attacks on non-MLSM websites, Arachni successfully executed 168 of 170 (98.82%), and ZAP executed 103 of 170 (60.58%) XSS attacks. However, after implementing the MLSM feature on the website, Arachni and ZAP attacks failed to perform XSS attacks, both stored, reflected, and DOM-based XSS. There is no single type of XSS attack that can be carried out on MLSM websites

1 OPROPOSAL PENDIRIAN MTS SCRIBD

The SAGE International Encyclopedia of Mass Media and Society. Scribd. Mar/Apr 2022. ReCAP: Liam Bui. Cool Tech Tools for Lower Tech Teachers: 20 Tactics for Every Classroom. Scribd. PENDEKATAN SOSIAL BUDAYA DALAM PENYELESAIAN POTENSI KONFLIK PENDIRIAN RUMAH IBADAH: Pendirian Vihara dan Masjid di Banyumas.

<p>Fokus penelitian ini adalah membahas persoalan mengapa masyarakat menolak atau menerima
pendirian sebuah rumah ibadah dengan alasan administrasi, teologis, dan sosiologis. Dengan
menggunakan metode deskriptif analisis terhadap data-data kualitatif, yang dikumpulkan melalui FGD,
wawancara, observasi, dan telaah dokumen, dalam penelitian ini diperoleh temuan sebagai berikut:
Pertama, bahwa pendirian rumah ibadah di Banyumas bukan saja bermuara pada persoalan perijinan
secara administratif, melainkan karena adanya faktor ideologis dan sosiologis. Kedua, bahwa alih fungsi
ruko menjadi

Vihara Prajna Maitreya yang semula mendapat penolakan dari warga sekitar Kelurahan Sokanegara dapat diselesaikan dengan pendekatan sosial budaya yang dilakukan oleh FKUB Kabupaten Banyumas, Kementerian Agama Kabupaten Banyumas, tokoh lintas agama, tokoh budaya, dan pemerintah daerah. Ketiga, bahwa regulasi PBM No 8 dan 9 tahun 2006, dalam praktik di daerah belum optimal dalam pelaksanaannya. Hal ini dapat diketahui bahwa, mayoritas rumah ibadah terutama masjid belum menerapkan PBM tersebut.

Permasalahan Izin Pendirian Tempat Ibadah dan Problematika Toleransi Keagamaan di Indonesia. Permasalahan Izin Pendirian Tempat Ibadah dan Problematika Toleransi Keagamaan di Indonesia.

Pelanggaran kebebasan beragama masih sering kali terjadi di Indonesia. Berbagai konflik mengenai perizinan tempat ibadah yang dilarang oleh kaum mayoritas. Hal ini telah melanggar hak asasi manusia yang dimana tertuang dalam UUD 1945. Oleh sebab itu kita harus menjunjung tinggi toleransi untuk dapat hidup berdampingan dengan damai. Toleransi juga mencirikan suatu sikap atau tingkah manusia yang mengikuti peraturan, dimana seorang dapat menghormati terhadap perilaku individu lain. Toleransi dalam hal social budaya yang berarti kelakuan dan perbuatan melarang terjadinya diskriminasi terhadap golongan yang berbeda dalam suatu lingkungan bermasyarakat. Tujuan dari penelitian ini untuk membahas mengapa masih adanya pelanggaran hak asasi manusia dalam kebebasan beragama. Dengan masih adanya peristiwa atau kasus intoleransi yang bersifat diskriminatif, tentunya pemerintah Indonesia harus melakukan berbagai perubahan dan evaluasi dari sektor Pendidikan dan penegakan hukum.

. Notarius. Notarius. Perubahan Pengaturan Pendirian Perseroan Terbatas Pasca Disahkan UU Cipta Kerja. Perubahan Pengaturan Pendirian Perseroan Terbatas Pasca Disahkan UU Cipta Kerja.

AbstractGovernment has enacted Government Regulation No. 8 of 2021 as the implementation regulation of Job Creation Act that has brought several changes to Law No. 40 of 2007. PP No. 8/2021 amends several provisions in UU PT such as Authorized Capital, Registration of Establishment, Amendment, and Disbanding of

One-Person Company that meet the criteria for Micro and Small Business (UMK). This research employs a normative-descriptive approach and aims to discuss the significant amendment of provisions in UU PT as stipulated in PP No. 8 /2021. The amendment of UU PT covers (i) the abolition of provision regarding minimum Authorized Capital, (ii) provision regarding "One-Person Company", including technical regulation of Establishment, Amendment, and Disbanding of One-Person Company, and also the obligation to make and submit a financial report. Keywords : establishment of individual companies; uu create work

Abstrak Pemerintah saat ini telah mengesahkan Peraturan Pemerintah No. 8/Tahun 2021, guna menjadi peraturan pelaksana atas Regulasi Cipta Kerja yang telah mengubah Regulasi Undang-Undang Perseroan Terbatas No. 40/Tahun 2007. PP No. 8/2021 mengatur mengenai perubahan ketentuan dalam UUPT, antara lain: Modal Dasar, Pendaftaran Pendirian, Perubahan, dan Pembubaran Perseroan Perorangan dengan kriteria UMK (Usaha Mikro dan Kecil). Metode yuridis normatif-deskriptif akan digunakan dalam Penelitian ini fokus dan membahas perubahan yang cukup signifikan mengenai regulasi UU PT yang diatur dalam PP No. 8/2021. Poin signifikan yang diubah dalam UU PT. adalah aturan penghapusan ketentuan batasan minimum Modal Dasar UU PT; dan aturan baru perihal "Perseroan Perorangan", termasuk aturan teknis mendirikan, mengubah, dan membubarkan Perseroan perorangan, serta keharusan membuat dan menyampaikan laporan keuangan. Kata kunci: pendirian perseroan perorangan; uu cipta kerja

. Harmoni. Harmoni. PENDIRIAN RUMAH IBADAT PASCA PBM NOMOR 9 DAN 8 TAHUN 2006 DAN KERUKUNAN UMAT BERAGAMA (Kasus Pendirian Gereja di Kota Bandung, Jawa Barat).

The establishment of house of worship is one of the crucial issues in the harmony of religious life in Indonesia. Some research have been conducted on the case of the construction of houses of worship, but it use the civic pluralism or human rights perspectives. This paper presents the results of research on the case of the construction of houses of worship, namely the church in Bandung, West Java, with conflict management perspective. This study was designed as a case study, by conducting interviews and observations as well as reviewing documents with conflict management perspectives and regulations on the establishment of houses of worship, by examining the elements of the community involved in the process of

building houses of worship and the social mechanisms undertaken. The results of this study indicate that the openness and communication between elements involved in the construction of houses of worship, as well as the process of socialization became an important factor in the establishment of the church, even in places where religious worshipers became 'minorities.' Social mechanisms or socialization between elements involved in the construction by itself will strengthen the harmony of religious life.

. Lambung Mangkurat Law Journal. abc. ANALISIS TERHADAP AKTA PENDIRIAN BADAN USAHA MILIK DESA: STUDI AKTA PENDIRIAN BADAN USAHA MILIK DESA TARATAK BANCAH SEJAHTERA.

Badan Usaha Milik Desa adalah badan usaha yang seluruh atau sebagian besar modalnya dimiliki oleh Desa melalui penyertaan secara langsung yang berasal dari kekayaan Desa yang dipisahkan guna mengelola aset, jasa pelayanan, dan usaha lainnya untuk sebesar-besarnya kesejahteraan masyarakat Desa. Salah satu BUMDes di Kota Sawah Lunto yaitu BUMDes Taratak Bancah Sejahtera yang merupakan (1) satu dari (3) tiga BUMDes yang pertama kali berdiri di tahun 2016 selain pendiriannya dengan Peraturan Desa juga dituangkan ke dalam akta notaris, yang mana didalam peraturan perundang-undangan tidak menjelaskan pendirian BUMDes dibuat dalam bentuk akta Notaris. Berdasarkan hal tersebut, maka penulis merumuskan permasalahan yaitu 1. Bagaimana Subtansi Akta Pendirian Badan Usaha Milik Desa Taratak Bancah Sejahtera? 2. Bagaimana Tanggung Jawab Notaris Dalam Pembuatan Akta Pendirian Badan Usaha Milik Desa? Metode penelitian dalam penelitian ini adalah yuridis normatif. Hasil penelitian: 1. Dalam penjelasan Pasal 87 ayat (1) PP Nomor 43 Tahun 2014, dinyatakan secara tegas bahwa BUMDes secara spesifik tidak dapat disamakan dengan badan hukum seperti perseroan terbatas, cv atau koperasi. Akta Pendirian Badan Usaha Milik Desa Taratak Bancah Sejahtera memuat Anggaran Dasar Dan Anggaran Rumah Tangga Badan Usaha Milik Desa Taratak Bancah Sejahtera; 2. Notaris tidak berwenang membuat akta pendirian BUMDes, namun berwenang membuat unit usaha berbadan hukum BUMDes. Tanggung Jawab Notaris berupa tanggung jawab secara perdata, pidana dan berdasarkan kode etik.

. Makalah Pembuatan atau Pendirian Komite Sekolah.

Dewan sekolah atau Komite sekolah merupakan forum yang berfungsi sebagai forum yang pro-evaluasi terhadap segala keinginan, prakarsa, dan keterlibatan para pemangku kepentingan sekolah. Dewan sekolah terdiri dari bagian-bagian berikut: Perwakilan orang tua siswa. Perwakilan guru, kepala sekolah, perwakilan tokoh masyarakat, perwakilan dunia usaha, perwakilan pemerintah daerah dan perwakilan pengawas pendidikan. Tujuan dibentuknya komite sekolah adalah agar masyarakat sekitar sekolah, khususnya orang tua atau wali siswa yang sah untuk turut serta dan berupaya meningkatkan mutu sekolah. Komite sekolah yang dibentuk dapat berkembang dengan cara yang unik dan berakar pada budaya, struktur demografi, ekologi, nilai dan keyakinan yang disepakati, yang dibangun sesuai dengan potensi masyarakat setempat. Dalam pembentukan komite sekolah terdapat aspek-aspek yang harus diperhatikan dalam pembentukan komite sekolah antara lain transparansi, akuntabilitas dan demokrasi. Selain itu, mekanisme pembentukan dewan sekolah diawali dengan pembentukan dewan pendahuluan.

. Notarius. Notarius. Peran Notaris Dalam Perizinan Pendirian Usaha Laundry di Kecamatan Jebres Kota Surakarta. Peran Notaris Dalam Perizinan Pendirian Usaha Laundry di Kecamatan Jebres Kota Surakarta.

Abstract Laundry is known as one of the rapidest growing businesses in Jebres District, Surakarta City. The presence of laundry makes it easy for people who live around such as residents, workers, especially students, because it can reduce the burden of homework they have without spending much energy and the price is affordable. As a business, laundry in its establishment requires a permit. The existence of permit is certainly associated to the role of Notary. The lack of knowledge that opening a business must have a permit, most of laundry in Jebres sub-district still not licensed. The analysis conducted during this thesis is an empirical study conducted from interviews with several experts in their fields and reference review. The conclusion obtained throughout this study is that the role of the Notary public in granting licensing for the concern of a business, which is a laundry business. In terms of the management of the business license, the laundry business owner has not been distributed properly because of lack of literacy of the law. Relating the licensing of the establishment of a laundry business, it's hoped the notary can provide education such as counseling on laundry that does not carry out its obligations. Keywords: laundry; notary public; permission Abstrak Usaha laundry

dapat dikatakan sebagai salah satu usaha yang berkembang pesat di Kecamatan Jebres Kota Surakarta. Kehadiran laundry memberikan kemudahan bagi masyarakat yang tinggal di sekitar seperti warga, mahasiswa, pekerja, terutama mahasiswa, karena dapat mengurangi beban pekerjaan rumah yang dimiliki tanpa menghabiskan banyak tenaga dan harganya dapat dijangkau bagi masyarakat. Laundry merupakan penyediaan jasa yang dilakukan terhadap proses pencucian pakaian. Laundry merupakan sebuah usaha, yang dalam pendiriannya membutuhkan izin. Adanya perizinan tentunya berkaitan dengan peran Notaris. Minimnya pengetahuan bahwa membuka usaha harus memiliki izin, maka banyak sekali laundry di kecamatan Jebres yang masih belum berizin. Dampaknya usaha tersebut tidak terlindungi secara hukum dan tidak sah. Penelitian yang dilakukan ini merupakan studi empiris yang dilakukan dari wawancara dengan beberapa ahli dalam bidangnya dan tinjauan pustaka. Kesimpulan yang didapat dalam penelitian ini adalah peran Notaris dalam pemberian perizinan berdirinya suatu usaha, yang merupakan usaha laundry. Dalam hal pengurusan izin usaha itu belum dilakukan dengan baik oleh pemilik usaha laundry karena kurang meleknya/kepahaman mengenai hukum, keengganan berurusan dengan hukum atau dapat dikatakan kurangnya kesadaran untuk membuat perizinan pendirian usaha laundry. Terkait dengan perizinan pendirian usaha laundry, diharapkan notaris dapat memberikan edukasi seperti penyuluhan terhadap laundry yang tidak melaksanakan kewajibannya. Kata kunci: laundry; notaris; perizinan

. Problematika Pendirian Rumah Ibadah Agama Buddha di Kota Tangerang.

Pelaksanaan ibadah umat beragama adalah hal mendasar bagi setiap umat beragama yang dijamin oleh negara. Dasar Hukum yang digunakan adalah Surat Keputusan Bersama Menteri Agama dan Menteri Dalam Negeri No. 01/Ber-MDN-MAG/1969 Tanggal 13 September 1969. Kasus pengrusakan tempat ibadah oleh kelompok-kelompok tertentu pada tahun belakangan ini sempat menyulut ketegangan antara umat beragama. Bentuk diskriminatif terhadap agama dalam berbagai hal seharusnya tidak boleh terjadi dalam sebuah negara yang berasaskan Pancasila. Pemerintah mengeluarkan Peraturan Bersama 2 Menteri sebagai acuan mendirikan rumah ibadah yaitu Peraturan Bersama Menteri Agama dan Menteri Dalam Negeri (PBMA dan MDN) Nomor 8 Tahun 2006 dan Nomor 9 Tahun 2006, selanjutnya disebut SKB 2 Menteri, yang membahas tentang pendirian rumah

ibadah dan pedoman penyiaran agama. Pemerintah seharusnya mengusahakan untuk membuat aturan-aturan penjelas yang lebih detail, 2 hal yang saling berkaitan, yaitu pembinaan kerukunan umat beragama melalui pembentukan Forum Kerukunan Umat Beragama (FKUB) dan prosedur pendirian rumah ibadah. Penelitian ini bertitik tolak pada kerangka pemikiran keagamaan yang membahas mengenai Problematika Pendirian Rumah Ibadah Agama Buddha kemudian di analisis makna yang terkandung di dalamnya. Di dalam penelitian ini, metode yang digunakan adalah metode penelitian kualitatif dengan model Miles and Huberman. Berdasarkan dari hasil penelitian dan pembahasan maka dapat disimpulkan bahwa Problematika yang terjadi dalam proses pendirian rumah ibadah adalah problem internal dan eksternal. Problem Internal seperti perbedaan pendapat dan kepentingan. Problem tersebut dapat diatasi dengan cara musyawarah antar pengurus vihara dan umat Buddha. Problem eksternal yang terjadi adalah adanya protes dari masyarakat dengan tidak menyetujui adanya tempat ibadah agama Buddha. Melalui komunikasi dengan tokoh masyarakat setempat maka masalah eksternal ini dapat diatasi dengan melakukan forum dialog yang lebih membuka kesempatan mendengar penjelasan masing-masing pihak yang berkonflik pada akhirnya konflik dapat diidentifikasi, dan dapat diatasi dengan baik. Kata Kunci: Problematika, Pendirian Rumah Ibadah Agama Buddha, Kota Tangerang

. Venture Capitalists at Work. Charles River Ventures: Twitter, Yammer, Millennial Media, Jambool, Scribd, Metaplace. George Zachary. Pengabdian Masyarakat Kolaboratif Pendirian Baruga Baca BJ Habibie, Desa Nepo Barru, 5-6 September 2022. Jurnal Teknodik. Teknodik. STUDI KELAYAKAN PENDIRIAN RADIO EDUKASI.

Radio edukasi adalah radio yang memanfaatkan dunia pembelajaran, dimana pola atau ruang lingkup pembelajaran ialah pendidikan formal, nonformal, yang meliputi pembelajaran. Dengan format radio pendidikan dan informasi (jauh berbeda dengan siaran-siaran radio lain yang cenderung lebih besar porsi nya kepada siaran hiburan), radio pendidikan mampu menarik perhatian audiens yang haus akan informasi pendidikan. Media radio mempunyai sifat sosial dan pendengar yang heterogen. Maka untuk pendirian sebuah radio edukasi diperlukan legitimasi melalui studi kelayakan dengan mengadakan jajak pendapat pada masyarakat sekitar dengan radius 5 km dari lokasi Radio edukasi dengan mempertimbangkan sifat

heterogenitas pendengar radio. Penelitian ini diadakan pada tanggal 7 - 9 Februari 2007 . Dengan tujuan mendapatkan data yang berupa pendapat, masukan maupun saran yang berkaitan dengan radio edukasi/ pendidikan. Kenyataan di lapangan, masyarakat menginginkan adanya radio pendidikan^Â dengan menampilkan acara yang menarik dan dikemas secara kreatif dengan konsep radio yang matang

. JATISWARA. Jtsw. Pengembangan Investasi Melalui Pendirian Unit Syariah.

Lahirnya Undang-Undang Nomor 1 Tahun 2016 tentang Penjaminan yang berlaku efektif pada 2019 telah membuka peluang pasar yang lebih besar kepada industri penjaminan, termasuk perusahaan penjaminan syariah. Untuk itu PT. Jamkrida NTB Bersaing awalnya bergerak dalam bidang penjaminan konvensional dalam perkembangannya akan mengembangkan investasinya melalui pendirian unit syariah. Akan tetapi hingga saat ini masih terbentur oleh kecukupan modal yang dipersyaratkan oleh peraturan perundang-undangan. Sebab hingga saat ini PT. Jamkrida NTB belum memenuhi standar minimal permodalan yang disyaratkan oleh Peraturan Otoritas Jasa Keuangan. Penelitian ini merupakan penelitian hukum normative dengan menggunakan pendekatan perundang-undangan, konseptual dan kasus. Hasil penelitian menunjukkan bahwa pendirian lembaga penjaminan kredit secara yuridis normative diatur dalam Undang-Undang Republik Indonesia Nomor 1 tahun 2016 tentang Penjaminan, Peraturan Menteri Keuangan Nomor 222/PMK.010/2008 tentang Perusahaan Penjaminan Kredit dan Perusahaan Penjaminan Ulang Kredit dan Peraturan Otoritas Jasa Keuangan Nomor 2/POJK 05/2017 tentang Penyelenggara Usaha Lembaga Penjamin. Kedua bahwa berdasarkan ketentuan Pasal 11 Peraturan Menteri Keuangan Nomor 222/PMK.010/2008 tentang Perusahaan Penjaminan Kredit dan Perusahaan Penjaminan Ulang Kredit: Jumlah modal disetor atau simpanan pokok, simpanan wajib dan hibah penjamin ditetapkan paling sedikit Rp. 100.000.000.000 (seratus miliar untuk lingkup nasional dan Rp. 50.000.000.000 (lima puluh miliar) untuk lingkup propinsi. Kemudian untuk Penjamin dan Penjamin Ulang yang membuka Unit Usaha Syariah wajib menyediakan dana awal paling sedikit sebesar Rp10.000.000.000,00 (sepuluh miliar rupiah) serta membuka Kantor Cabang Syariah yang baru atau mengubah kegiatan usaha Kantor Cabang yang melakukan kegiatan usaha secara konvensional menjadi Kantor Cabang Syariah.

KONFLIK PENDIRIAN GEREJA YASMIN BOGOR.

Conflict is a social phenomenon that is present in social life, so that conflict is inherently means conflict will always exist in every space and time, anywhere and anytime. In this view, society is an arena of conflict or an arena of conflict and integration that is always going on. Therefore, conflict and social integration is a symptom that always fill every social life. Things that encourage the emergence of conflict and integration is the existence of similarities and differences of social interests . In every social life there is not a single human having the exact similarity, whether of ethnicity, interests, will, will, purpose and so on. From each conflict there are some that can be resolved, but some can not be resolved resulting in some acts of violence. Violence is a symptom that can not overcome the root of the conflict, causing violence from the smallest model of violence to war. Good communication is needed in problem solving and is important in achieving the success of a life in the community. Conflicts can be resolved well if communication is harmoniously established between the community, both verbal and non verbal. Effective communication patterns are one of the most important conditions in relation to resolving conflicts among conflict resolution societies that arise in marriage life especially in different national marriages, the subject of education because women and men are distinctly different in terms of communication. This is what then makes researchers want to know more deeply about how the picture polakomunikasi in conflict resolution Keywords: Patterns, Communication, and Conflict.

ECONOMIC GEOLOGY UMESHWAR PRASAD

WASURY

What is the concept of economic geology? Economic geology is concerned with earth materials that can be used for economic and industrial purposes. These materials include precious and base metals, nonmetallic minerals and construction-grade stone.

What is the economic geology course? An undergraduate course offered by the Research School of Earth Sciences. This course covers the distribution, geological setting and genesis of metalliferous mineral deposits.

What is the relationship between geology and economics? Many earth materials are excavated for economic or industrial purposes. For instance, many precious gems and metals (like diamonds and copper) are mined to create jewellery or parts of electronics. The study of such materials is known as economic geology.

What does an economic geologist do? Economic geologists seek profitable deposits of oil, gas, and minerals; and economic geologists determine how best to extract those valuables from the subsurface. Economic geologists perform investigations that involve many aspects of geology and they work all around the world.

What are the 3 main ideas of geology? 1.5: Three Big Ideas- Geological Time, Uniformitarianism, and Plate Tectonics. In geology there are three big ideas that are fundamental to the way we think about how Earth works.

What are the essential minerals in economic geology? They include Tin, Cobalt, Lithium, Germanium, Gallium, Indium, Niobium, Beryllium, Tantalum, Tungsten, Bismuth and Selenium and Rare Earths.

How to get into economic geology? Comparing Economic Geology Master's Degrees To apply, students must have a bachelor's degree in geology (or a significant amount of undergraduate geology coursework), GRE test scores, a statement of purpose, and letters of recommendation from previous college professors.

Is geology a high paying major? As of Aug 27, 2024, the average annual pay for a Geologist in California is \$70,400 a year. Just in case you need a simple salary calculator, that works out to be approximately \$33.85 an hour. This is the equivalent of \$1,353/week or \$5,866/month.

Are geology degrees worth it? Key Takeaways The cost of a geology degree is an investment in a field with a positive job outlook and the potential for high job satisfaction. Geologists play a critical role in addressing environmental challenges, making the degree worth it for those passionate about Earth sciences.

What is economic geology pdf? Economic geology is concerned with all the natural mineral resources of the earth's that can be used for economic and/or

industrial purposes. These resources include precious and base metals, nonmetallic minerals, construction-grade stone, petroleum, coal, and water.

What is mineralization in economic geology? In geology, mineralization is the deposition of economically important metals in the formation of ore bodies or "lodes" by various process.

How many years does it take to become a geologist? Generally, aspiring geologists earn a bachelor's degree in geology or a related subject, like earth science. This means it can take about three to five years to become a geologist. Some courses that may help prepare you for a successful geology career include: Geological science.

What does economic geology include the study of? So in summary, economic geology is the study of the formation and extraction of earth materials that have some economic potential in society, meaning they are already valuable or they have the potential to become valuable. These resources are called mineral resources and include minerals, ores, oil, and gas.

Is geologist in high demand? Landslides, earthquake, flooding, volcanic, and aquifer contamination are all modern problems that will only continue to rise as populations increase. This demand for geologists and hydrogeologists continue to be a large provider of job opportunities for earth scientists in both the United States and globally.

What is the main concept of economic geography? Economic geography is the study of spatial economics – that is, where economic activity takes place and why it takes place there. It injects another dimension into economic analysis by acknowledging that location is important.

What is the basic concept of geology? The major concepts in geology include Earth's systems, plate tectonics, geologic time, Earth's structure, Earth's minerals, fossils, landforms, processes that shape the earth, weathering and erosion, radioactivity, rock composition, and the rock cycle.

What is the concept of the economic concept? Four key economic concepts—scarcity, supply and demand, costs and benefits, and incentives—can help explain many decisions that humans make.

What is the concept of economic science? Economic Science refers to the study of human behavior in relation to the allocation of limited resources with alternative uses, and the trade-offs involved in decision-making and actions in the economic domain. It explores how to best distribute scarce resources among competing needs.

THIS VOICE IN MY HEART A RUNNERS MEMOIR OF GENOCIDE FAITH AND FORGIVENESS GILBERT TUHABONYE

"This Voice in My Heart": Healing the Wounds of Genocide, Faith, and Forgiveness

This Voice in My Heart: A Runner's Memoir of Genocide, Faith, and Forgiveness by Gilbert Tuhabonye is a powerful and moving account of the author's experience as a survivor of the Rwandan genocide. Through a series of poignant and deeply personal reflections, Tuhabonye explores the complexities of trauma, loss, and the transformative power of faith and forgiveness.

Q: What inspired you to write "This Voice in My Heart"?

A: I felt compelled to share my story as a testimony to the resilience of the human spirit and to offer hope to others who have suffered unimaginable pain. I wanted to show that even in the face of such darkness, there can be light and healing.

Q: How did your faith sustain you during the genocide?

A: My faith in God was my anchor during the darkest of days. I drew strength from my prayers and the belief that my life had a purpose beyond the horrors I witnessed. It gave me the courage to forgive and to seek reconciliation.

Q: What role did running play in your recovery?

A: Running became my sanctuary, a way to escape the pain and process my emotions. It allowed me to focus on the present moment and to experience a sense of freedom and accomplishment. It also helped me connect with others who had suffered similar losses.

Q: How have you found forgiveness for those who committed the genocide?

A: Forgiveness has been a long and difficult journey, but it is essential for my own healing. I have come to understand that forgiveness is not about condoning evil but rather about releasing the burden of hatred and seeking a path to reconciliation. I believe that by forgiving, we can break the cycle of violence and create a better future for our communities.

Q: What message do you hope readers will take away from your memoir?

A: I want readers to understand that even in the face of unspeakable tragedy, hope and healing are possible. I hope that my story will inspire others to find courage, resilience, and compassion within themselves. I believe that by sharing our stories and embracing forgiveness, we can create a world where peace and understanding prevail.
