QURAN AL-KARIM DAN QURAN MAJID.

This paper aims to dispel the confusion of students related to the knowledge of Rasm and Dhabt al-Quran among students of the Institute of Teacher Education, Sultan Mizan Campus. The confusion arises when they are unable to distinguish between the two disciplines of the Qur'an, namely, writing (rasm) and punctuation (dhabt). This paper solely focuses on the principle of al-hazf, which is one of the five principles in the method of Rasm Uthmani as agreed upon by scholars today. The sample of this study was selected based on the principle of purposive sampling, that is, a sample that is believed to be able to answer the research questions well. The results show that there is no difference in terms of writing in the two mashafs because each was written in accordance with the principles and methods of Rasm Uthmani. However, it is noted that there are differences in terms of punctuation in the two mashafs. The punctuation differences were employed to meet the needs of the readership where the Quran was printed and according to current development then. Tulisan ini bermatlamat merungkai kekeliruan para pelajar berkaitan ilmu Rasm dan Dhabt al-Quran dalam kalangan pelajar Institut Pendidikan Guru Kampus Sultan Mizan. Kekeliruan tersebut timbul apabila mereka tidak dapat membezakan di antara dua disiplin ilmu al-Quran iaitu, tulisan (rasm) dan tanda bacaan (dhabt). Tulisan ini hanya memfokuskan kepada prinsip al-hazf, iaitu salah satu daripada lima prinsip dalam kaedah Rasm Uthmani sebagaimana yang disepakati oleh ulama pada masa kini. Sampel kajian ini dipilih berdasarkan prinsip pensampelan bertujuan, iaitu sampel yang diyakini boleh menjawab persoalan kajian ini dengan baik. Hasil kajian menunjukkan tidak terdapat perbezaan dari segi tulisan dalam kedua-dua mashaf kerana masing-masing ditulis menepati prinsip dan kaedah Rasm Uthmani. Manakala terdapat perbezaan dari segi tanda baca di dalam kedua-dua mashaf. Perbezaan tanda baca berkenaan dilakukan bagi memenuhi keperluan masyarakat pembaca di tempat al-Quran itu dicetak dan mengikut perkembangan semasa.

Abstract This article discusses the meaning of Jannah in the Qur'an using the method descriptive-analysis, the researches examines the meaning of Jannah in etimology and terminology by the worldview of mufassir and Syeikh Abd' al-Qadir al-Jailani, using the semantic analysis approach to know the meaning of Jannah from the derivation. The conclusion from this article, Jannah lafadz etimology is paradise, meanwhile termilogy is a paradise creation by God as responding for the kindnees of human beings. This argument agree with the perspective of Syeikh Abd' al-Qadir al-Jailani he said the paradise is place for human beings in the akhirat. Than Jannah lafadz terminology is suitable, because Jannah is a place for the kindness of human beings in the akhirat, meanwhile creation God a place for the meanness is the hell.

Gen Z is a group of people who are more inclined towards virtual communication. This inclination has been influenced by their dependency on the smart phone and social media that results in internet addiction. Without realising it, their interpersonal communication skills are affected which among others is active listening (AL). Gen Z was found to have difficulty practicing an effective listening process when interacting with others face-to-face as the focus was more directed towards the device. To overcome this issue, references from the al-Quran on AL has been analysed with a focus on the element of mind building with listening (MBL). This research uses the qualitative method and data collected are from the books of exegesis that discusses this component of MBL and literature from previous research. A total of six verses of the Quran themed '?????' were selected and analyzed. Five tafsir books are referred to as primary sources to discuss the interpretation of sentences by focusing on the components in PMA. The results showed that suggested five components that could improve AL among Gen Z are to i) apply the value of Iman ii) receive and give

attention iii) think, understand and evaluate iv) enquire and to v) respond and take action. It is therefore hoped that gen Z will benefit from this MBL and to practice it in communication that will consequently improve their interpersonal relationships with those important to them.

DINAMIKA PENERJEMAHAN AL-QURAN: Polemik Karya Terjemah Al-Quran HB Jassin dan Tarjamah Tafsiriyah Al-Quran Muhammad Thalib.

Tulisan ini mengkaji tentang penerjemahan al-QurTMan di Indonesia yang menjadi penanda adanya interaksi umat Islam di Indonesia dengan Kitab Sucinya yang tidak terbatas pada membaca dan mengkajinya dalam lafaz asli, yaitu bahasa Arab. Seperti halnya tafsir al-QurTMan yang penuh dengan dinamika, penerjemahan al-QurTMan pun menyentuh ranah polemik yang menyeret perhatian para penganutnya dari kalangan yang berbeda-beda. Polemik yang dimaksud dapat ditemukan di antara bangunan sejarah penerjemahan yang panjang. Dalam kajian ini, penulis memilih dua polemik penerjemahan yang pernah muncul, yaitu "Al-QurTMan Bacaan Mulia" dan "Al-QurTMan Berwajah Puisi" karya HB Jassin dan "Tarjamah Tafsiriyah Al-QurTMan" Muhammad Thalib. Keduanya memiliki wajah yang sangat berbeda, yang pertama, dengan berpegang pada paradigma etika dan estetika secara bebas mengutamakan keindahan kalimat dan kedalaman makna yang syarat akan nuansa sastra. Sedangkan yang kedua, melalui

paradigma teologis mendasarkan terjemahnya atas tafsir-tafsir Al-Qurâ€™an sehingga menghasilkan terjemah yang sangat hati-hati, terbatas akan makna dan kandungannya.
