This chapter takes a look at the Muslimische Jugend Deutschland (Muslim Youth of Germany, or MJD), a small organization of not more than 1200 registered members. The MJD promotes Muslim youths of diverse backgrounds coming together to discover ways of becoming active and desirable members of German society. Young members of the MJD participate in discussions about how to represent Muslims and immigrants in the general elections; arrange trips to Auschwitz in order to shoulder the weight of German history and talk about its meaning for contemporary German society; and organize New Year's evening celebrations along with hip-hop concerts that are Islamically proper. Many born Muslim members confirm that through their participation in the MJD, they start to embrace their German identity in a wholehearted way and define themselves primarily as German rather than Turkish or Arab.

This chapter demonstrates how two competing methods for the presentation of Muslim identity at a time of potential stigma coexisted and sometimes conflicted at the City Mosque. Such internal cultural friction resulted from the fact that these methods for managing stigma were rooted in two distinct models of public Muslim selfhood, one developed by the Legendz through the in-group processes of their small friendship group, and one constructed by the mosque leadership as their ideal model for Muslim American youth. While the mosque leadership method of presenting young Muslim selves centered on leading with and explaining Islam, demonstrating vulnerability to harassment, and developing concern for non-Muslims' perceptions, the method cultivated by the Legendz prioritized the development of a low-key Islamic self, an emphasis on locally valued American teenage behaviors, and the expression of individual autonomy and self-sufficiency. These differing logics of public identity management represented a significant rift between the Legendz and the leadership and sometimes even undermined the boys' faith and trust in the mosque adults. This development was a surprising and emotionally intense experience for the Legendz.

Cosmopolitanism: Ways of Being Muslim. Being Canadian and Ahmadi Muslim: exploring identity formation of young Ahmadi Muslim women.

This study explored the identity formation of young women from a minority Muslim group known as Ahmadis in Canada. Nine unstructured interviews were conducted with women between the ages of 20-26. The questions that this study explored were: How do Ahmadi Muslim women understand and negotiate their identities? What are the factors that shaped and influenced their identity? The participants noted various components of Canadian and Ahmadi identity. Being Canadian meant having multiculturalism/ diversity, being accepting, polite, watching hockey and eating foods such as poutine. Being Ahmadi Muslim meant to have a strong sense of community (Jama 'at), a sense of sisterhood and unity. The study also found various factors which shaped the identities of these young women which included family, friends, location, the Jama 'at (community) and parent's immigration history. Recommendations for theory and practice are provided as well as implications for future research. Key Words: Identity, Ahmadi Muslim women, Identity formation, Canadian

The Right Kind of Revolution: Modernization, Development, and US Foreign Policy from the Cold War to the Present

By Michael

Introduction

Michael's book, "The Right Kind of Revolution: Modernization, Development, and US Foreign Policy from the Cold War to the Present," examines the complex relationship between modernization, development, and US foreign policy. The book argues that the promise of modernization and development has often been used to justify US intervention and dominance in the developing world.

Cold War Origins

After World War II, the Cold War rivalry between the US and the Soviet Union shaped American foreign policy. The US viewed modernization and development as key tools to counter Soviet influence and promote capitalist democracy. This led to programs such as the Marshall Plan and the Point Four Program, which provided economic and technical assistance to developing countries.

Development and Intervention

In the 1960s and 1970s, the focus on modernization and development grew. Western governments and international organizations promoted neo-liberal economic policies, such as free markets and privatization. However, these policies often led to growing inequality and social unrest in developing countries. In some cases, the US intervened militarily to support authoritarian regimes that promised economic stability.

Neoconservatism and the War on Terror

After the end of the Cold War, neoconservatives argued that the US should use its military power to promote democracy and human rights in the developing world. This led to interventions in countries such as Iraq and Afghanistan, which were justified as efforts to bring about modernization and development. However, these interventions often resulted in instability and conflict.

Contemporary Challenges

Today, the US continues to focus on modernization and development as a means of addressing global challenges, such as poverty, inequality, and climate change. However, there is growing recognition that these goals must be pursued in a way that respects human rights, environmental sustainability, and local self-determination.

Conclusion

The promise of modernization and development has been a powerful force in American foreign policy. However, it is important to critically examine how these concepts have been used in the past and to ensure that they are pursued in a way that is ethical and sustainable.

STRATEGIC MARKETING PROBLEMS ROGER

KERIN 13 EDITION

Strategic Marketing Problems: An Examination

In the highly competitive business landscape, organizations face numerous strategic marketing problems that can hinder their growth and success. Roger Kerin, a renowned marketing expert, outlines 13 key problems that organizations must address in his seminal work, "Strategic Marketing Problems: Cases and Applications, 13th Edition."

Problem 1: Market Segmentation and Targeting Question: How can companies effectively identify and differentiate target market segments to tailor their marketing efforts? Answer: Market segmentation and targeting involve dividing the market into distinct groups based on unique needs and characteristics. By understanding these segments, companies can customize their marketing strategies to appeal to specific customer groups.

Problem 2: Product Positioning Question: How can organizations establish a clear and compelling position for their products or services in the minds of consumers? Answer: Product positioning involves shaping perceptions about a product's attributes, benefits, and differentiation from competitors. Successful positioning requires developing a value proposition that resonates with target segments and creates a competitive advantage.

Problem 3: Brand Management Question: How can companies build and manage strong brands that command loyalty and influence consumer behavior? Answer: Brand management encompasses creating, developing, and maintaining a distinctive brand identity. It involves aligning all marketing activities with the brand's positioning and values to foster customer relationships and drive long-term growth.

Problem 4: Marketing Research Question: How can organizations effectively gather, analyze, and interpret market data to inform their strategic marketing decisions? Answer: Marketing research provides valuable insights into market dynamics, consumer needs, and competitor actions. By leveraging research techniques, companies can make informed decisions based on data-driven

evidence.

Problem 5: Marketing Metrics and Measurement Question: How can companies measure the effectiveness of their marketing strategies and determine their return on investment? Answer: Marketing metrics and measurement are crucial for evaluating the performance of marketing campaigns. By tracking key metrics such as website traffic, lead generation, and sales conversions, organizations can optimize their strategies and maximize their impact.

HUSQVARNA RIDER 16 AWD SERVICE MANUAL

How often should I service my Husqvarna riding mower? For your ride-on mower to work optimally, maintenance must be performed after 50, 100 or 200 hours, depending on the type of your product. Some maintenance can be performed easily, and some needs to be done by the authorised local dealer.

How do you start a Husqvarna rider?

How often do you change the oil in a Husqvarna? However, a good rule of thumb is to check the oil level once for every five hours of continuous use and to change the oil a minimum of once per season.

How often do you change the spark plugs on a Husqvarna riding lawn mower? In general, you should change your lawnmower's spark plugs at the start of every season or after 25 hours of use – whichever comes first. There is also a strong chance that they may be the culprit if your mower won't start.

Is Husqvarna easy to start? Fuel pump Fuel pump designed for easy starting. Starting a cold engine requires less effort thanks to the air purge. "Every function and design feature on a Husqvarna chainsaw is there to help you work efficiently and safely. To make cold starting easier, the carburetor has a manual fuel pump, also called air purge.

What is Husqvarna Smart Start? Smart Start® your perfection Husqvarna Grass trimmers are provided with an auto return stop switch. It means that when the machine is turned off, the stop switch automatically returns to the start position for easier starting. This way your grass trimmer will be ready for use again, whenever

you are.

What would cause a Husqvarna mower not to start? The fuel filter might be clogged. A clogged fuel filter is most commonly caused by leaving old fuel in the lawn mower. Over time, some of the ingredients in the fuel may evaporate, leaving behind a thicker, stickier substance. This sticky fuel can clog up the fuel filter and prevent the engine from starting.

What oil does Husqvarna recommend? Husqvarna's full synthetic 10W-30 4-stroke engine oil is a premium oil blend designed for tough, commercial use. This lawn mower oil is ideal for tractors, commercial zero-turn mowers and commercial walk-behind mowers.

How long do Husqvarna engines last? The number of hours a Husqvarna riding mower lasts is also affected by how much use it gets. If you use your lawn mower regularly, you should expect to get around 600-800 hours of life from it. If you only use it occasionally, it may last up to 1,500 hours or more.

What happens if you don't change the oil in a lawn mower? Over time, oil breaks down, becomes contaminated with dirt and debris, and loses its ability to protect the engine. Old, dirty oil can cause engine wear, reduce performance, leaks, and potentially harm your lawn mower permanently.

How often should a riding mower be serviced? A lawn mower tune-up is needed annually at a minimum. If your machine gets a lot of use, it needs a tune-up every 100 hours. The same goes for blade sharpening and cleaning. You also must check the tension on the mower and driving belts, check the tire pressure, and clean the engine cooling fins.

How often should I grease my Husqvarna riding mower?

How often should you service a lawn mower? Ideally, lawn mower maintenance should be performed throughout summer and spring and in preparation for the winter off season. myhomeTURF recommends that to maintain a productive lawn mower, a full service by a professional once a year is advised or in accordance with your mower's service booklet.

What is the life expectancy of a Husqvarna lawn mower? With the right maintenance, your mower can live well and strong for about 15 years.
